Average Customer Review: 4.6 out of 5 stars 5 customer reviews

Best Sellers Rank: #130,434 in Books (See Top 100 in Books) #14 in Books > Science & Math > Mathematics > Applied > Linear Programming

## Customer Reviews

Super book to help Grandson with math. Love Pok mon, Love Math, lol

Not only did my grandson love this so did my son, so I bought him on for father's day!

I loved this idea but I can't get my kids to do the math. =(

Love the series, love the author. Finally some good purposeful use of the time. If you want to improve your kids math and logical skills, these books are for you. The difficulty level rises quickly so even for my "Megamind, Dexter" there were challenging parts. He loves Pokemon as well so this is good help for your kid.

My daughter did a few pages, wasn't exactly what I was expecting but good way to incorporate math into coloring.
