Harriet Brooks: Pioneer Nuclear Scientist

Synopsis

After completing a master's degree at McGill University under Rutherford's tutelage, Brooks continued her post-graduate work at Bryn Mawr College and Cambridge University, eventually returning to McGill to work again with Rutherford. In 1904 she left Canada to work at Barnard College in New York City, and then with Curie in Paris. Brooks had a significant career as a nuclear scientist, but her success was hampered by the fact that she was a woman. She eventually married and left research. Her premature death at age fifty-six was probably related to her work with radiation.

Book Information

Paperback: 204 pages

Publisher: Mcgill-Queens University Press; 1st Paperback Edition edition (June 30, 1994)

Language: English

ISBN-10: 0773512543

ISBN-13: 978-0773512542

Product Dimensions: 6 x 0.5 x 8.9 inches

Shipping Weight: 13 ounces

Average Customer Review: 4.0 out of 5 stars 1 customer review

Best Sellers Rank: #3,101,245 in Books (See Top 100 in Books) #77 in Books > Science & Math > Chemistry > Nuclear Chemistry #633 in Books > Biographies & Memoirs > Historical > Canadian #3776 in Books > History > Americas > Canada

Customer Reviews

"Fills a significant gap, not only in the contribution of women to science but for the accurate representation of the early history of the theory of the transmutation of elements." M.H. Chaplin, Choice.

In my past life I was Ms. Brooks. I was born in 1873 and died in 1933. I had 3 children. I died at an earlier age due to radiation. I know live in the body of man named Gregory Morrison. Mr. Morrison had not idea that I was in the light before and now here. I have waited for the right moment to let him know this. Mr. Morrison is handing everything very well. I hope that he will achieve those things in his life time that I did not or was not able to achieve. Mr. Morrison is married and has 2 children of his own. His children are from the light too. We come back and forth from the world sometime only once but sometimes 2 or 3 times in our new life or heavenly place. Again it is nice to be able to walk

on the earth and see and do those things that I never really had the the chance to do. Driving a new car, having the proper medical care when needed, cable TV, and just a better life totally. Once again thank you for reading this letter and may you travel in peace too. Ms. Brooks
