Marijuana Smoker's Guidebook: The Easy Way To Identify And Enjoy Marijuana Strains

Synopsis

Matt Mernagh's Marijuana Smoker's Guidebook is the ultimate field guide for marijuana. Featuring 180 commercially-available cannabis strains from across the world, this book shows and tells you how to identify and enjoy the buds you've got, the buds you want and the buds you might never even have heard of. Though there are a great many strain guides currently available, they all feature rare and difficult to find strains, and show how each different plant looks as it grows. This is great for cannabis connoisseurs and breeding professionals, but what about the everyday street smoker who just needs to identify and know about the buds he's buying? Written and photographed with this inquisitive everyday smoker in mind, Marijuana Smoker's Guidebook features 180 descriptions and smoke reports of North America's most popular marijuana strains as well as high resolution photos of each bud to show you exactly what your nugs should look like. Unlike some strain guides which use glorified catalog copy as strain descriptions, every single strain in this book has been smoked by Matt Mernagh himself, with an informative, original and entertaining write up and high resolution photo to bring you up to speed on your weed. Pocket-sized and featuring photos and descriptions of strains from Barney's Farm's LSD to the elusive Jean Guy, and many more for all your favorite smokes, Marijuana Smoker's Guidebook is the indispensable resource for everyone who loves pot and wants to learn more about how to identify and enjoy good marijuana.

"Matt Mernagh is a fantastic writer, a passionate medical cannabis activist, and a knowledgeable marijuana connoisseur [who] teaches people how to identify what kind of marijuana they are buying, what it's going to smell and taste like, and what the effects of smoking it will be." #151; S.T. Oner, best-selling author of Marijuana Chef Cookbook

Matt Mernagh is possibly the most infamous medical marijuana patient in North America – despite not actually being in the medical cannabis program. Since spending two nights in Toronto's Don Jail having been caught cultivating the city's largest balcony grow, Mernagh has been embroiled in a complex legal battle with roots as deep as the Constitution. The ultimate goal is to allow patients to grow their own medicine without restrictive and illogical licenses from the government's broken medical marijuana program. In the meantime, Mernagh has a court ordered exemption from the country's marijuana laws, making him the only person in Canada legally entitled to grow and possess his own weed. Mernagh has been a writer and activist for 15 years, and was a regular contributor to Toronto papers NOW and Exclaim! as well as Marc Emery's Cannabis Culture. He currently runs an extensive collection of cannabis smoke reports on his website, Mernagh.ca, and hosts the Mernajjuana Show every week from Toronto's Vapor Central.

Marijuana Smoker's Guidebook is a useful resource of information for all users. The guide demonstrates simple ways to identify common characteristics of cannabis strains without reaching a level of complexity that could be difficult to understand. From the introduction with all the How To's to the detailed unique individual descriptions of many popular buds this book is a wealth of knowledge that readers will find as an asset to their cannabis consumption. Sensi Star is one of my favourites. Maybe Vol.2 could have a scratch and sniff feature :D

I've been reading this guide book for the last few days and its terrific for 'newbies' like me as well as seasoned tokers. The book goes from A to Z with great photos and knowledgeable info on what to expect from the high. I used to smoke in my teens and 20's and marijuana has changed dramatically since then. Since I'm going to Amsterdam in May this was the perfect book to get in advance.

Matt is a cannabis patient, activist and is fantastic at producing great youtube strain grows. This book is a reflection of another skill by a great cannabis voice. This book dives into the strains that

you might have heard of and some you haven't and mostly the strains you could most likely find near you. A lot of Cannabis strain authors just give you the same crap the seed companies post in their sales pitches, (I mean why wouldn't you just read the seedbank catalogs right?), but not Matt he takes you through the taste and effect and even throws a bit of grow info in too, and you can trust him, just go to youtube and look up Matt Mernagh and see him grow some of these strains himself. Definitely a must have book for cannabis patients and Strainhunters alike.

Nice reviews plus photos of various strains.

Great read and full of information on different strains

Im not good at knowing strains and this book works great for me! its a tool that will guide you in getting to know your strains a bit better as well as possibly save you some "coins". This book is awesomeness plus its affordable ~~Ã¢â¬~~™Â¥ NO REGRETS WITH THIS PURCHASE :DMaya

Bought this book for my boyfriend two years ago for Valentines day and he loved it! Has a lot of interesting information and descriptions.

A good book for any growers library. I gave it four stars because it was written in 2009. Growing knowledge has grown by leaps and bounds since 2009 and there is much better information today on the forums.
