This is an excellent large fold-out map of Sao Paulo Brazil and the surrounding areas, with alphabetical street index, and enlarged box sections of the city center/sambodrome area, the university, the airport and Santos. Very complete street grid, with names in bold block letters, and sections/cantons in paler large letters, with color coded places of interest including parks, museums, theaters, hospitals & shopping centers. This is a great map to make copies of and highlight streets & avenues important to your trip, such as your hotel & adjacent streets; even side streets are named here. Very thorough.

We are traveling to Brazil this summer and I was really confused by the travel books on the layout of Sao Paulo. I was having a difficult time envisioning where to stay in this complicated city. The map

was fabulous. I could read the guide books and look at this detailed, easy to read map and knew immediately where to book a VRBO. Fantastic - I am sure we will use it during our stay in this mega-city.

This map is basically for the city center, and doesn't even extend down to Ibirapuera Park. The top half of the park is there but that's it. Disappointed as some of the places we were wanting to go was Av Paulista, some Jazz bars down in that area, as well as Villa Olimpia, non of which are even covered by this map. It is HUGE but only covers the center of town? I don't think it even goes as far East as where the airport is. As big as this map is I was pretty shocked at how little it covered.

I thought it would be laminated, it is not.

Useful.
