Customer Reviews

I was so excited when I heard that they were re-releasing the Bioshock series in a remastered version for the newest consoles. The games themselves were beautiful in the first place, and the remasters don't disappoint. I pre-ordered both the book and the game, and my book came in just in time. It's been very well written, and the pictures are great! It has proven to be a useful companion during my journey. I like to squeeze every last bit of game play and achievement that I can from a

game, and this guide will absolutely help anyone that plays in this manner. It does a great job of giving you all of the info that you need at the time without spoiling things as long as you don't read the book cover-to-cover before you begin the game. I'm also a collector, and like to have the guide to go with the game in my collection. It has collector's value, and I don't regret my purchase in the least.

This is an ok guide but is incomplete for the locations of audio diaries. For some reason it has them all on the map but when it does the walkthrough, it mentions some but not others. I bought this guide for the diary locations and I still had to use a youtube guide. If you want it for this, I don't recommend it. Also, I already had a guide for Bioshock Infinite and it is the same exactly as the one in this collection with no improvement but it has slightly different artwork.

I love Bioshock. This is a nice guide to help get through the game. It was even better that it came with a code to access the maps and everything right on my tablet. The only drawback is not all audio diaries are listed in walkthrough.

My husband enjoys it

Great, thick n good book i love it thanks

Best guide hands down! Highly recommended for all that bioshock fans out there!

Very informative book. Haven't read much of it though. More of a collector item, for me.

Arrived promptly and exactly as described. A+
