## Synopsis

From the Best-Selling learning to read series, Bob Books, comes *Sight Words: First Grade*. Sight words are common words that appear again and again in your children's reading material. Knowing these words "by sight" is essential for reading fluency. *Bob Books Sight Words - First Grade* gradually adds more complexity as your beginning reader acquires 30 new sight words. It is a great companion book to *Bob Books Sight Words - Kindergarten*. Consistent short vowels in one syllable words of three, four or five letters, mean children can sound out (decode) the story. They learn three new sight words per book. While words and stories in *Sight Words First Grade* are slightly longer and more complex than *Sight Words Kindergarten*, they are still suitable for a beginning reader. Inside the box you'll find:

- 10 easy-to-read, hilarious small books, 12 pages each.
- Slightly longer and more complex stories.
- All stories told in one syllable, three-, four- and five-letter words, plus sight words.
- Consistent short vowels mean easy decoding in the rest of the story.
- Three new sight words introduced in each book.
- Context clues and illustrations give sight word hints.
- 30 two-sided, sight words flash cards..

At Bob Books, we emphasize that learning to read should be gentle and easy. This means that letters and concepts are introduced slowly and in a way that kids can understand, with plenty of repetition and opportunity for achievement. Learning to read is surprisingly complex, but Bob Books progress gradually and gently, helping children achieve early reading success and setting a foundation for a lifetime of strong literacy skills. Our method of meeting children where they are on their path to reading, is the easiest and most effective method, versatile enough to use both at home and in the classroom. Feeling overwhelmed with the task of teaching your child to read? The good news is that you don't have to know reading theory to use Bob Books. Teaching your child to read using Bob Books will not feel like teaching. Bob Books provide a step-by-step program to gently guide your child through the early stages of reading. At each level, books are carefully crafted to meet the needs of a particular stage in a child's reading development. Learning to read with Bob Books assures children success from their very first reading experience. Your child will amaze you with how quickly they can go from needing help, to reading all by themselves. Don't Push Not all children are ready to read at the same age. Be sensitive to your child's learning style and reading readiness. Practice together, sounds out words and play games. Take many small steps, and be patient. One day you'll be surprised and delighted to discover your child is a reader. This is easy! A confident reader is a reader for life. That's why Bob Books sets were designed to give your child early reading confidence - so that they will love to read! Make it FUN! Other early literacy programs can teach your child to "memorize" words or "perform" reading well, but Bob Books is not meant to be a chore. Best of all, there are so many ways to make it enjoyable for your child. Try the activities that come with the sets, use silly voices while reading together and make up songs. We wish your young learner much success and happiness as he or she enters the great adventure of reading.

Man oh man does my son LOVE reading these! He feels soooo proud of himself when he can pick up a book and read it from front to back. Best part was watching him do it with my mom ;-) Could it get to be too simple in a few more months? Sure....but he's already reading then, isn't he??

Excellent book for kids to learn to read. My son reads these all the time now in kindergarten. He had no interest in reading before but these books helped his confidence and now he loves reading.

Excellent beginner book set!

2 months into kindergarten, the teacher called a conference with my wife and I. Suggested that our son repeat Kindergarten due to his frustration and lack of attention in learning his ABC's. So we were determined to teach him his ABC's, reading, and have him enter 1st grade with his peers. We purchased Set 1, 2, and sight words. Now fast forward 2 months after the Bob's books, my son is reading!!! And his teacher sent home a lengthy note about how ecstatic they were in his reading. They even called him a super reader! You must be patient because these books are "boring" to a NORMAL reader, however, to a kid that is just beginning to understand how to sound letters, and put them in to words " they are an absolute MUST. He gets very excited with each book he finishes, and we let him put marbles in his reward jar. Full jar equals cool reward. Each set contains 12 books (I think), and they are short reads " 7 or 8 pages. Very little distractions. WE ARE SOOOO HAPPY WITH THIS PURCHASE!

These books are wonderful. Our 5yr old kindergartener only knew 25 sight words 2 months ago. With the help of these books he has confidence to sound out and read the entire series. These books help give young readers confidence to explore new material!

These books are fantastic. My 5-year-old is starting school in a week and we have been working on reading all summer. He is working on sight words and phonics exercises and is reading the first 3 books very well and is moving on to 4,5, and 6. The sight words cards that come with the set are very helpful. He really enjoys mastering them and then reading them in the books. I wish all the beginning sets came with cards. We have this set and the Beginning Stories set and I just came back and bought 2 more sets! These are just challenging enough but not so hard that he can't read the whole thing himself.

I get it, but they are really just OK books to me... a few words per page, very simple pictures... My daughter (5) loved them, so 4 stars for the love... Plus, was easy enough for her to catch on to most of the words and read them back, which of course is the primary purpose. I feel that there are a lot of choices now in this type of introductory learning book that these have lost their charm.

I bought the other set of Bob beginner readers years ago for my older daughter and didn't like them, but for my younger daughter was a reluctant reader in kindergarten so in desperation I bought these to help her learn her sight words. This set has been essential in helping her learn to read. I recently pulled the older Bob set out of storage and I still like this set MUCH better. For one thing, kindergartners are assessed based on sight words. This set also has more of a story, such that it is, so they have given her confidence that she is actually reading a book. The other ones are really reading words, some of which make sense and others that don't.

I can't say enough great things about the BOB books when it comes to teaching my kid how to read. they are fantastic.
