Sacred Success: A Course In Financial Miracles

Synopsis

Sacred Success[®]: A Course in Financial Miracles shows women there is a better way to achieve wealth and power: on your own terms; as a woman. Barbara Stanny, the leading expert on women and money, has helped women take control of their finances for two decades; and she knows there is much more to success than how much you earn. In her work with powerful, successful women over the last 20 years, bestselling author and financial educator Stanny has found that most women's problems with money have little to do with money itself, but rather with their fear of, or ambivalence toward, power. Instead of pushing women to pursue financial success in the traditional fashion, Sacred Success seeks to redefine power from a feminine perspective. More than a financial guide, Sacred Success is a primer on power for women; a tutorial for taking charge of your life by taking charge of your finances, and not only growing your money but creating a deeper, richer, and more meaningful life. Best described as 'A Course in Miracles meets the Wall Street Journal,' Sacred Success gives you a proven process that uniquely blends the practical, psychological, and spiritual work of wealth. You can be financially successful without sacrificing your soul or compromising your values. You can create wealth and exercise power by staying true to your authentic self and personal mission. The principles in this book were not all new to me, but organized in a way that made the message even more powerful. I'm grateful for the personal journey that Ms. Stanny combines with extensive research and interviews to deliver these principles with such punch, yet easy to read!

Love this book. Causing me to think and review my personal self and life. so I am reading slowly. Lots of food for thought. There are a lot of thought provoking points and exercises. I would love to start a book study group of ladies. I live in Phoenix, Arizona

This book is full of brilliant little tips to greatness. I only hope I can follow through on the awesome advice. I wish I had read it 20 years ago, I will buy a copy for my daughter.

This book knocked out my old, limited, perception of success and allowed me to breathe! I don't have to hustle, grind, and push to be successful. That's not the steps I need to take. Flow. Receptivity. Divine Action. That sounds and feels much better!

I've read some of Barbara's other books and enjoyed them, but this is the best! I love the balance between real-world techniques and psychological strategies to work on both the inside and out toward a new definition of success.

Omg all i could say is FANTASTIC. I am an avid reader and i have been devouring books on personal growth for the past 8 years. It is 4:30am right now and I just completed this book. This book was soooo good, that I am writing my very first review.Barbara is an incredible writer. I was pulled into this book from the very first chapter. I expected it was a book about how to manage money and be smarter with it..It was that and sooo much more. She explained the world of investing in a very simple way and took what was extremely intimidating and made it palatable. I now have a game plan for what my portfolio will look like and steps to building my legacy.She uncovered steps i have been taking toward my Greatness and help me to understand this phase i am currently in. I have been affected by 1 of the 4 Power pollutants and now I know why.I highly recommend this book for anyone who is stepping out of the grasp of mediocrity into their greatness.I will be recommending this book to my tribe.You can find me at [...]

Barbara Stanny's best book yet. She gets to the matter of money without leaving behind our emotions and connection to something even bigger.

Love this book. So much excellent advice and great exercises so that I can live into my greatness. Thank you Barbara I am changing my mind and opening up to an entire new way to live and be.
