The Dragon Kings Box Set

Synopsis

Get all five books this thrilling Best Selling Series, the Dragon Kings now! From Obsidian, Book 1: Seventeen-year-old Aspen is a skydiving, rock climbing, adrenaline junky. All her life, she's been fascinated by the dragons who roam near her home in Yellowstone Park. Yes, Dragons. Though no human has ever gotten close enough to touch one. Except Aspen. While most people avoid the national parks because of the resident dragons, Aspen spends most of her free time in search of the feared and misunderstood creatures. For her, studying the dragons is a way to escape a painful past and avoid getting too close to anyone. She'd rather track dragons in the wild and through the lens of her camera than talk to real people. But then Aspen meets a hot new guy at school, Sid King. He's the one person she's ever met who shares her obsession with all things dragon. But even as she feels strangely drawn to the mysterious boy, she senses he's hiding his own set of dark and powerful secrets. When hikers start turning up dead in the park, everyone suspects the formidable predators. Unless Aspen can prove their innocence, every one of her beloved dragons is in danger of eradication. After Aspen and Sid uncover a sinister plot behind the brutal attacks, Aspen can no longer deny that Sid somehow knows more about the deaths than he should and the secrets they both keep threaten to rip their lives apart forever. Praise for Obsidian: This book was great. Aspen and Sid are like the kids next door except that one is a dragon king and the other is dragon obsessed. This book keeps you on the edge of your seat and wanting more. Can't wait to read the rest of the series! --David B. Dragons! Need I say more? But seriously, a great YA romance revolving around these magical creatures. Likable characters with depth. I love that it's modern day but with dragons. --Devour Books

Customer Reviews

I enjoyed the concept of the stories and the characters. All books still require a lot of editing. Several sentences throughout the series contained duplicate words like the the or by by, but in other areas missing simple words like of or the. While reading the first two books I was ok with it but 5 books in it was annoying. Some scenes were too convenient to make an easy story and not necessarily realistic but that's the fun of reading fantasy.

I was able to read the first book Obsidian for free. I loved it so much I went and bought the boxed set before I even finished the first book. Not to give too much away, it was interesting on how the dragons and humans interacted. At first I didn't like Aspen she seemed like a spoiled, stuck up brat, but then I warmed to her. As the books go on there is a plucky little dragon that everyone will like (the unruly child in all of us).

This series is a delightful and wonderful read. Loved them and would highly recommend them to my friends. Wish there were more would love to know how it all comes out with the hatchlings

I love this series! The first three books are so amazing, the least favorite couple of my was the older sister, though her mate who was a dragon king was awesome. She's just was so snotty! But I loved the books, lots of action and intrigue! Don't miss out!

Amazing story line. Complex, characters amazing hope there's more simply one of the best boxed set of books I've read

A wonderful take on Dragons and their order. I fell in love with Obsidian as I read further into the series. This author really pulls you in and has you on the edge of your seat wondering what is to

come.

dragons! what else needs to be said?!?!!

Squee! Before reading this series, any book with Dragons drew my attention. But I've never read anything like this before. I could not stop reading. So good!
