# Cannibalism, Blood Drinking & High-Adept Satanism

## Synopsis

This book was written as a response to reader feedback from my first book *Angelic Defenders and Demonic Abusers*. Some of this book is a memoir, but it also consists of my own research as well as insider information. It talks about Satanism as a powerful worldwide movement. It talks about the minority of Satanists who practice cannibalism and blood drinking. And it talks about the High Adept Satanists who are masters of the occult. This book also suggests a connection between Global Satanism and Alien intelligence. Although I am a Christian, I think that persons who believe in other philosophies would also find this book to be of interest. And some Satanists would find my insights to be of interest. Below is a quote from this book. In it I tell the story of a visit I had as a child with two aristocratic cannibals known as the two sisters. For this story I gave them the names of Nancy and Bernie. I made this visit to their mansion with a man who had the nick name of the Baron because he behaved like a robber baron. "After the meal thankfully ended, they took us to see their Satanic temple which they had constructed in their basement. The two sisters took their religion very seriously. So showing us this temple was a big deal for them. And as bizarre as it may sound, in a sense, both the Baron and I felt flattered that they had offered to show it to us. To them, their belief in Satan was very sincere, and to show us their altar was an act of extreme emotional intimacy. Or at least we had thought so when had they invited us. I had seen a number of Luciferian altars by then, and sometimes it had been a pleasant experience. Some Luciferians reveal their inner feelings through their altars, and in some cases they are quite beautiful. On the first floor of the home there was a sturdy wooden door which lead down into the basement. It had a special lock on it. Bernie unlocked it with a key which was hung around her neck. After the door was unlocked, there seemed to be some tension between the Baron and Bernie. The two of them made eye contact and looked at each other intensely. The Baron asked, "Are you inviting us in?" Bernie answered, "You are our guests." She opened the door. "You first," she said. "I must insist, you go first," he replied. Bernie entered the dark stairwell. The Baron followed and I was behind him. Nancy brought up the rear. Although Bernie trotted quickly down the stairs, the Baron proceeded slowly. I soon discovered why. The entire staircase was painted flat black, as were the walls. There was a tiny overhead light that shined dimly. But the worse problem wasn't the lighting, the worse problem was the stairs themselves. They were not standard sized stairs. The depth of each stair was too shallow. And the width of each stair was overly narrow. And there were no handrails. It was as if the stairs had been designed to make you tumble down them. Furthermore you couldn't clearly see where you were stepping because the dim lighting and the blackness. It took concentration to figure out where you should step. And sometimes the width and depth of the stairs changed. So the

Baronâ™s slow progress down the stairs was filled with tension. Nancy, behind us, kept on chiding us to go faster, but the Baron ignored her. With each thoughtful step that I made, I felt more and more afraid. Before us, about a third of the way down, there was a curtain of red beads. We cautiously pushed through them. Then a bit further down, we faced a second similar curtain of blood red beads. We pushed through them as well. The beads made a slight rattling sound as they closed behind me. A unique smell rose up out of the basement. It smelt of overly perfumed incense and there was a faint rotten smell, like that of dead meat that had been left out for too long. I could feel bile rise in my throat as we proceeded downward. Finally after we pushed through a third red curtain, we found ourselves in the basement. We were stunned by what we saw."

A very well written book on some very scary topics. Weather it's all true or not, it still has some very good information on the beast system and how to avoid the evil in this world. Looking forward to reading his other books!!!!

I was glad Kerth didn't go into detail about the horrible videos he witnessed in his first book, but he

did in this one. It's sad that those who can't fathom cruelty, especially to children, need to know snippets of evil like this. It's not fair that our hearts and minds must be burdened by this knowledge, but it's the only way to wake us up. I don't believe in alien beings. I think if you simply replace the word alien with demon, it explains everything perfectly. They are the Grays, the ghosts, the entities blurred in pictures, and the monsters doing the bidding of satanists. The only way to protect yourself is by having a relationship with Jesus and being Saved. These books need to be read by every WAKING person. Put on the whole armor of God. Ask Him to put it on your spirit, soul and body in Jesus' name. I've never been more protected and energized. God bless Kerth for speaking out.

You can take this book as made up, you can take it as partially made up, or you can take it as a 100% true account. In either case it will be much more disturbing than any fiction or non-fiction you have ever read. I have researched the elite and MKULTRA for quite a while now. I personally believe that this kind of thing really is happening and the masses generally don't believe this kind of thing is happening. They tend to be naive and too trusting of those in power. It really is like they are under some type of sorcery or spell. I tend to make the comparison to those serial killers or people in communities who appear to be these really kind, family oriented people but have these interior skeletons that harbor incredibly sick and sadistic activities. A prime example would be the BTK killer. Nobody ever thought he could be capable of it. But this is on a collective level. On the most powerful people on the planet. The idea that power corrupts is not a conspiracy theory kind of notion. And that's really all you need to understand to get why these things happen. As far as the source being demonic or alien, who knows really but that these kind of activities go on at the top levels for me, is without a doubt.

Kerth's writing style for this ultra-serious topic is perfect. Just the facts. Less is more when the subject matter is this heavy.

an important topic given the new popularity of 'devil worshipping'

This book gave a better understanding of the dark side

It's a very interesting book..I highly recommend it..it's very disturbing, informative and very thought provoking...it's a must read...it will have you glued from beginning to end...
