# FlightBridgeED, LLC - FP-C/CFRN Certification Review & Advanced Practice Update: FP-C, CCP-C, CFRN, CCRN, CEN, CTRN Advanced Certification Review Study Guide

## Synopsis

This valuable resource has garnered the #1 Best Seller status in transport medicine!

FlightBridgeED, LLC is proud to provide a comprehensive 2nd Edition -OUTLINE review book that encompasses a thorough overview of critical care concepts pertaining to the CFRN, CCRN, CEN, FP-C, and CCP-C advanced certification exams. The 2nd Edition is a newly reformatted version with current 2015 updated content. This detailed, 215 page, full color review book will give the candidate an excellent overview of all critical care core topics covered on these certification exams. Along with the highly detailed critical care lecture outlines that are approved by the Board of Critical Care Transport Paramedic Certification (BCCTPC), you will find practice exam questions that re-enforce each lecture, along with the answers and rationale for follow up and continued exam preparation. You will also find tables and quick reference material to help you prepare for these tough exams. All material is up to date and based on new evidence based medicine and protocols including the 10th edition CAMTS standards. Also check out our newest book that is an essential supplement to this book.. The F.A.S.T Exam Prep book includes over 350 critical care level questions, rational and test tips, designed to provide you with practice in the types of questions typical of the CFRN, CCRN, FP-C or CCP-C exams. In addition, the questions in this book are a sampling of topics used to drive advanced certification test banks, allowing you a great way to review. Bundle these together for an outstanding learning experience!!

## Customer Reviews

Eric Bauer is the founder | CEO and lead educator for FlightBridgeED, LLC. He has worked in the

EMS field for 26 years with the past 15 years spent in the HEMS industry. Eric is an internationally recognized author, speaker and educator and holds a Bachelors Degree in Business - Health Care Administration and a Masters of Business Administration - MBA. He's currently working on his Doctoral Degree Ed.D. in Higher Education | Adult Learning. He currently works as a Clinical Education Manager for the largest air medical provider in the world. He has spoken on many critical care topics as an educator, and has authored and published 92 critical care podcasts related to the HEMS industry, with over 1 million downloads in the first 4 years of publication. He has developed a passion for all things ventilator management and is asked to consult on the subject on multiple levels related to pre-hospital EMS and HEMS around the world. His most recent work has focused on writing and publishing the #1 Best Seller: Ventilator Management - A Pre-Hospital Perspective". His love and passion for teaching is the founding basis for establishing FlightBridgeED, LLC!

It is very clear that a lot of work and research went in to building the author's PowerPoint presentation and very little into the production of this book. The book is simply an outline of the slides that go with his review class. The two products combine, I am certain are a great review for the exam, but this is not a stand alone book. I will say that it serves as excellent outline for the reader that is looking to do research and "self-teach". Its a great skeleton, but little flesh.

Thanks to Eric's podcast's and book I passed my FP-C with room to spare! Sign up for the podcasts, they provide a great review of clinically important concepts and are an awesome learning tool for both new and experienced critical care and prehospital providers.

This is not for the first time FP-C / CFRN. This is a book in an outline format with very little explanations. This appears to be a quick review for someone that already has a grasp of the material and theories. Im into my second chapter and I have already found some confusing contradictions and wrong answers in the key. Positively it seems to mirror (mostly) my other sources. The information appears to be up to date. Some of the test "tips" also seem to be the same as other sources. I was looking for a more in-depth source to explain the topics to me as I am a "newbie" The cover does say its a exam review and advanced practice update.

Eric Bauer- I love your podcasts. This book has great content, but I'd rather have a book I can pick up and read, rather than feel like I am looking at someone's notes from a lecture. If the book came with a matched podcast, that would have been fantastic. There are just too many podcasts to dig

through to find the one that matches the chapter.

Definitely the perfect study guide for the CFRN.

I sent it back. Unless you have a basic idea of the material, this book is very difficult to follow. It is basically an outline for a much longer book.

Was not very user friendly and had many errors in the answer section... rationale would be for answer b but it would list d. Just not edited very well and did not represent the test very well in my opinion. I like the Orchid Lopez book much better of the 5-6 that I used before I took the test.

A bit more advanced than other books like this. Written in outline format, it requires a different style of study. Very effective.
