The Titanic holds a special fascination for many people. For me, the fascination always took the part of curiosity about the PEOPLE onboard the ill-fated ship. Who were they? What were their stories? This book tells the stories of 13 couples who were taking their honeymoon onboard the Titanic. The author does an excellent job of interspersing their stories with fascinating facts about the ship, as well as anecdotes that have come down through the decades. He gives a good variation of couples as well. Some were millionaires: others were struggling-and hoping for a better life in America. Some of their stories end hopefully, while others ended tragically-but none of the survivors were ever the same afterwards. I think this is a very worthwhile read for Titanic fans, as well as other history buffs. It tells the real story in a very readable but completely factual way.

Being a avid Titanic fan,I have read all I can on the ship and the passengers. This book by far is the best. Goes into detail about how some couples came aboard the ship as a married couple and a few met after the ship sunk. It is a great read.

Well-researched stories of some that survived and for others that didn't.

Great detail and interesting life stories. Highly recommended for Titanic fans. You wont regret reading this book with all the honeymooner stories.

A very fast read. I loved the stories of the honeymooners.

Sometimes you get a historical non-fiction that is hard to read and doesn't make you want to complete it. But I found myself not wanting to put this down. Well told and based on fact that gave it life. Gave it to my daughter to read and she also enjoyed it.

Little bid disappointed expect more of their life after the accident.

Not much information on the couple's themselves and each story tended to go off on tangents but lots of information on the sinking of the ship and the differences between the classes and how how terrifying it was for everybody yet some wives wouldn't leave their husbands and how the band played on until the very end
