Our Company History In 1928, at the age of twenty-two, Peter Beilenson began printing books on a small press in the basement of his parents' home in Larchmont, New York. Peter -- and later, his wife, Edna -- sought to create fine books that sold at prices even a pauper could afford;. Today, still family owned and operated, Peter Pauper Press continues to honor our founders' legacy -- and our customers' expectations -- of beauty, quality, and value.

This past Christmas I decided to give password books with gifts for friends and family members. I've found my own to be super useful and am writing this review to share a comparison of the ones I purchased here on .I'm uploading some photos that will tell you more than my words here do. Below are links for the books, in the same order they are laid out in the first photo I'm posting.Book #1 is the red one I personally own and love, (this one is not currently available here but for comparisons, this is it) The Personal Internet Address & Password Logbook - Red If you want to read my

review with photos, you can do so here,

http://www..com/review/R35K16WUNGUFH6/ref=cm_cr_rdp_perm?ie=UTF8&ASIN=1441308148 Book #2 is similar to my own and is currently available here, [The Personal Internet Address & Password Log Book](#) (Like mine, it has cut out tabs in the pages, two letters per tab.) Book #3 is the smaller but thicker, spiral bound, white book, [BookFactory's](#) [® Password Journal / Password Diary / Mini Pocket Passwords Notebook, 120 Pages - 3 1/2" x 5 1/4", Durable Thick Translucent Cover, High Quality Wire-O Binding \(JOU-120-MCW-A-\(Password\)\)](#) (This one is handy if you want the ability to hold it in one hand while writing on either side. The others will only open like a regular book.) Book #4 is the larger book with a bright geometric cover, [Password Journal: Password Keeper / Music Gifts \(Internet Address Logbook / Diary / Notebook \) \(Password Journals - Music \(Carnival\)\)](#) (This one has noticeably lighter ink inside but definitely stands out on a bookshelf.) Book #5 is the larger black book with butterflies on it, [Password Log: \(An Internet Address and Password Journal\)](#) (I like that the ink is printed nice and dark so I gifted this one to my mom since her eyesight is not what it used to be.) I'd say the first two have the best covers in terms of long range durability. I like the tabs but you might not if you don't like the idea of them being two letters at a time. I think all five have nice paper. Hopefully the photos give you a good idea for size and comparison of features. Lastly, I'll recommend some pencils. Since passwords can change, it makes sense to write in these books in pencil. These ones write well and erase easier than others I've used (funny as that sounds), [Bic Xtra Fun Ultra Solid Break Resistant #2 Pencils \(8 Count\)](#) I'd recommend all of these password books. Numbers 2, 3, & 5 I'd say are the best choices (beyond that I think it depends on current pricing, your handwriting size, and overall preferences). Buy with confidence! Smile. Hope this is helpful!

The inside the book is fine, but there is a huge sticker on the back of the book that states: "Warning---To avoid danger of suffocation, keep away from babies and children. Do not use in cribs, beds, or play pens. This bag is not a toy" This sticker does not come off the cover of the book without tearing the book cover. Plus, this did not even come in a bag, so why is there a sticker like this even on it?

This is exactly what I wanted. A single place where you can store all your important login information and not have to store it on the computer. I had a notebook which was serving that purpose for me, but things were scattered all over it. Having a notebook where all the login information can be alphabetically organized for easy access was wonderful. Some reviewers have

complained about the size, but it is exactly what the specifications say, 4x5.5. Though the size is perfect for me, this product itself has disappointed me in several ways:1. The outside covers are made of light cardboard. Not the kind of binding you would expect in a reasonable well bound notebook. In short, it feels cheap.2. The paper quality is OK, but not good for this purpose. In a book like this, you are likely to make lots of changes because passwords are frequently changed for security purposes. I will write in this book with a pencil only for that reason. I am not sure if the paper in this book will withstand frequent erasures and re-writes without showing eraser marks or getting faded.3. It is flimsy. It has a spiral bound inside (visible in the last picture) that is not very smooth. Pages tend to get tangled in the spiral. Slightly fewer pages or slightly bigger spiral would have fixed the problem. Ideally, a notebook like this, that you are likely to keep for a long time, should be stitched. However, this is just a suggestion. In sum, it needs better binding and better quality paper and cover. The inner layout is fine. If you desire a quality notebook, you will be disappointed after mild usage, if not on first sight. Had I seen this in a store, I would not have bought it.

Pretty straightforward product and I am really pleased with it. Smaller than expected, but I'm actually happy with that. The slip on the front page is removable so it just looks like any other journal or diary. Really happy to see it has a strap to help keep it closed too. My favorite part is that it has the labels for the letters. I see this being very useful to me since I am always signing up for sites I will only need to use so often and easily forget passwords, especially with all the "rules" now days of what your password needs to contain.

A little smaller than I imagined but it is exactly what I was looking for. I'll bet I went to 6 different grocery and drug stores that have office and school supplies and none of them had a simple address book. This is very nice quality for the price. Spiral bound inside a leatherette/vinyl (?) binder. Peter Pauper Press is unique in their products including the popular I CAN'T REMEMBER S#IT book. Too funny. Glad I found this.
