Book decent.

Just what I was looking for

A rather thin book with a lot of repeating of information. This sourcebook could have been written into a section of another sourcebook (it was that lacking in information). It would have been better to buy one of the larger (better written) Clan books. Too late.

It is an excellent book, providing detailed information on all major aspects of Clan Jade Falcon. Any player interested in the Clans, particularly Clan Jade Falcon, should get this book to enrich the gameplay experience.

This is an excellent book for information on Clan Jade Falcon. But I'm more of a Wolf person so I gave it 4 stars.
