Customer Reviews

Jeanne Filler Scott's work has been in numerous exhibitions. In addition to her magazine credits, she has published several greeting cards, and she is the author of *Wildlife Painting Basics: Small Animals*.

Took week to arrive, few pages were stuck together at the very top, as if the book got little damp or wet and it buckled and the pages dried together. Not bad shape. I love all forms of art, drawing, painting etc. I don't always have time to draw and paint, it's usually one or the other, this lets you just do a quick trace and just start painting. Even though I know how to draw it cuts the time in half.

you can trace the following. Cat - 3 different sketches Kitten - 1 sketch Dog - 4 different sketches Puppy - 1 sketch Horse - 3 different sketches Pony and baby horse - 1 each Cow - 2 sketches Calf - 1 sketch Pig - 1 sketch Chicks - 1 sketch Ducks - 1 sketch Rooster - 1 sketch. Over all decent book, it gives step by step maybe not AS detailed as other books out there but good. Gives colors you will use or like me you can change all the colors and patterns. Would I buy again? Yes

Detailed instruction. Lots of images & clear easy to understand text

Its okay. I need more instructions then it offers. I read it 4 Times and still need help with where to start painting.

Is easy to follow, clear explanation. I like it so much. I recommend to people who is interested in painting animals.

This is a wonderfully easy to follow painting book. The details are really good. Jeanne Fillers Scott is one of my favorite artist. Her painting books include everything you need to know about getting started. is the best place to review and purchase books. They offer a great selection, easy transactions and very fast shipping right to your door! What more could you want. Buy more books!

To be fair, I like looking at the book and I think these would be very simple pattern ideas to follow. Sort of a "how to draw a detailed coloring book of your favorite pets", manual. Non intimidating, i'm just lazy. Right now its being used as a "mouse coaster" for a laptopso you could say that my husband fins my book useful too!

Prompt delivery! Love the content and can't wait to try the techniques described.
