Customer Reviews

I read this book when it was named Second String and was part of the Last Play series. Now it is the first of the Billionaire Grooms series. I love all the stories in both series. It is such a delight to find clean romances with very real feeling characters and plots that suck you in and keep you reading far into the night. Katherine and Cameron have are the great characters in this book. Highly recommended. (P.S. I also appreciate that the description makes certain the reader/buyer knows this is the same book with a new cover and title.)

This is one of my favorite all-time books! Cam and Kat have sparks and romance and it was so fun to read their banter. They also have a lot of depth to them. This story pulled me right in.

Taylor Hart writes fun romance that usually involves a football star hero or a billionaire hero and a down-to-earth girl-next-door heroine. I've read the first two books in her Last Play series about football players finding love and this is currently the last book in that series. This also overlaps with the Billionaire Groom series and introduces the reader to the other gentlemen who eventually get their own stories. This book was originally titled "Second String" and is being released with a new title "Football Groom" since it's a segway into the Billionaire Groom series. Taylor Hart writes some seriously funny dialogue between her main characters. The storyline is fun, the plot moves swiftly, and the book is quite easy to read. Her characters are real, flawed, lovable, and engaging. Yes, Cam is a football star and has gazillions of dollars to spend but he's also a man with real emotions, family ties, and a past. Kat is a broken spirit, running away from her hurtful past without really knowing what she wants out of life. There is definitely a strong current of physical attraction between the two, but their relationship is underscored by a growing trust, openness, and vulnerability with each other which added depth. Now I need to go and blaze through all the other books in the Billionaire Groom series as well as catch up with my football stars in the Last Play series! I received a free copy of the book from the author. I was not required to write a review or a favorable review. All comments and

opinions are solely my own.

This was the second Taylor Hart book I picked up, and the first that endeared me to the Billionaire Groom series, which I am currently working through. This book was originally titled *Second String*, and has been renamed '*The Football Groom*', which is a more appropriate place to put this story in my opinion. Cameron is hiding from the media and Jackson Hole, Wy seems the place to do it. Why not I say, it's a fabulous place. While he is there he comes across Katherine, who is steadily working in what was her Grandfather's river trips business - but now belongs to someone else. It's her love and passion and her dream to also one day get back the ranch that was once also in the family. Cameron has the money and means to make her dreams come true, but she is just irritated and annoyed by his presence. He's determined and will use whatever ways he can to worm his way into her good books. Including that of his high powered billionaire friends in Jackson. This is where we are introduced to the group of guys that will follow on in this series. I liked that Katherine did not know who Cameron was for most of the story. I love the river guiding segments. This book combines many of my favourite things to create an almost perfect story. 4.5 stars. Clean, romance that gives you the feels in all the right places - this book is a good way to start if you have never read a Taylor Hart book. If you have Kindle Unlimited, then all of her books are free to read on. Either way, they are worth the read even if you don't have KU.

This is a stand alone, good, clean romance. It is very interesting and captivating. It's about Cameron, a wealthy, famous, pro football player who buys a ranch under his sister's name, in Jackson Hole, Wyoming, trying to hide out to grieve his father's death. Katherine is working as a river guide for the company that had been owned by her grandfather. She is still grieving the death of her grandfather and having broke up with her fiancé when things didn't feel right about him. When Cam's sister's family is coming for a visit, he looks for activities they would enjoy doing and checks out the Snake River Guides. When Kat doesn't recognize him or the name on his credit card, he is very pleased he can enjoy her company without wondering if she is just after his money and fame. When he flirts with her she shows him a fake engagement ring. When she takes him alone on a trip down the river, there is attraction between them. Especially after they have an accident and he saves her life. Cam meets his other wealthy neighbors and they help Kat with her charity program she is working on. The two of them have a lot of drama to deal with before they get their HEA. It is a very captivating story that was hard for me to put down. It is a good story for all ages. I would highly recommend it.

Loved this book. I loved the characters. I love the clean aspect of Ms. Hart's writing. And her characters always keep me entertained. Katherine and Cameron are awesome together. I love that she didn't know who he was (that's always a good thing because famous people need to know someone loves them for THEM...as we all do) and really could have cared less about him being famous. She's playing tough to get. She just wants to do her job but he has other ideas! Their chemistry is wonderful. I love all of Taylor's books. She is a great writer. I love they are all clean romances. I'm glad she added this book to this series and retitled it. It will make it easier for people to follow the series.
