

## The book was found

# **Environmental Science For AP\***

## Synopsis

My son use this book ,got AP 5, he used carefully, there are some yellow outlines, but the pages are very clean except the outlines, it is almost like new.

#### **Book Information**

Hardcover: 656 pages

Publisher: W. H. Freeman; 2 edition (January 9, 2015)

Language: English

ISBN-10: 1464108684

ISBN-13: 978-1464108686

Product Dimensions: 8.7 x 1.3 x 11.1 inches

Shipping Weight: 3.8 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 6 customer reviews

Best Sellers Rank: #15,186 in Books (See Top 100 in Books) #62 in Books > Textbooks >

Science & Mathematics > Earth Sciences #173 in Books > Science & Math > Earth Sciences

Andrew J. Friedland is The Richard and Jane Pearl Professor in Environmental Studies and Chair of the Environmental Studies Program at Dartmouth. He was the founding chair of the Advanced Placement Test Development Committee (College Board) for Environmental Science. He has a strong interest in high school science education and in the early years of APES he participated in a number of trainer and teacher workshops at Kimball Union Academy, Dartmouth College, and elsewhere. During many of the last ten summers, he has guest lectured at the St. Johnsbury Academy (Vermont) AP Institute for Secondary Teachers. Friedland regularly teaches introductory environmental science and energy courses and has taught courses in forest biogeochemistry, global change, and soil science, as well as foreign study courses in Kenya. For more than two decades, Friedland has been researching the effects of air pollution (lead, nitrogen, sulfur, calcium) on high-elevation forests of New England and the Northeast. More recently, he has begun investigating the impact of individual choices and personal action on energy consumption and the environment. Friedland has served on panels for the NSF and USDA Forest Service and has just finished serving on his third panel of the Science Advisory Board of the EPA. He has authored or coauthored more than fifty-five peer-reviewed publications and one book, Writing Successful Science Proposals (Yale University Press). Friedland received BAs in Biology and Environmental Studies and a PhD in Geology from the University of Pennsylvania. He is passionate about saving

energy and can be seen wandering the halls of the Environmental Studies Program at Dartmouth with a Kill-A-Watt meter, determining the electricity load of vending machines, data projectors, and computers. Rick Relyea is Director of the Jefferson Project at Lake George for Rensselaer Polytechnic Institute, a groundbreaking partnership between Rensselaer, IBM, and the FUND for Lake George. For the project, Relyea leads a team of Rensselaer scientists, engineers, computer scientists, and other experts who are using the latest in science and technology to understand, predict and enable a resilient ecosystem for nearby Lake George. From 1999 to 2014, Relyea was at the University of Pittsburgh. In 2005, he was named the Chancellor's Distinguished Researcher and in 2014 he received the Tina and David Bellet Award for Teaching Excellence. From 2007-2014, Relyea served as the director of the university s field station, the Pymatuning Laboratory of Ecology, where he oversaw a diverse set of ecological field courses and facilitates researchers from around the world. Rick has taught thousands of undergraduate students in introductory ecology, behavioral ecology, and evolution. His research is recognized throughout the world and has been published in Ecology, Ecology Letters, American Naturalist, PNAS, and other leading ecological journals. The research spans a wide range of ecological and evolutionary topics including animal behavior, sexual selection, ecotoxicology, disease ecology, phenotypic plasticity, community ecology, ecosystem ecology, and landscape ecology. Currently Relyea s research focuses on aquatic habitats and the diversity of species that live in these ecosystems."

This text provides very detailed coverage of the material on the AP Environmental Science exam.

Exceeded my expections, quick delivery and accurate description

It met all of my expectations. Thank you!

A+++++++ thank you!

Great book! Good condition!

It is great!
