Enchanted: Erotic Bedtime Stories for Women is a collection of fairy tales retold in a very naughty way. You have Cinderella, Goldilocks, The Ugly Duckling, and many more. If you're looking for short stories filled with sexy magical enchantment, then this is an excellent read for you. What I really

loved about this book was that not only was the collection clever and witty, it was also surprisingly innovative and original. I was pleasantly surprised. The author didn't simply copy and paste classic fairy tales and then throw in a few sex scenes, she rewrote each story in a wonderfully unique way, while stilling staying true to the original. It was amazingly well done. Also, real fairy tales always have a purpose, a moral to be told. They aren't simply entertaining stories, they are supposed to teach in the process. The same goes for these tales, the messages are obviously very different, but there is a point to each one. In most cases it's about female empowerment, breaking through boundaries and finding yourself. Enchanted is full of worthy messages for women. As for the sex scenes, which are the focus here, some were far too short and seriously lacking on details. When a woman reads erotica she expects more than a simple paragraph or two of sex, even if it is a short story. Fortunately, the entire book wasn't all that way, there were quite a few hot and steamy scenes that are sure to please anyone. On that note, there is a wide assortment of pleasure to be enjoyed - group sex, S&M, roleplaying, anal... etc. So there is something to please all kinds of tastes. In the end, I was really shocked by how well done this book was. I admit, I was expecting simple sex stories, but these were fantastic. I totally recommend this for the ladies looking for a steamy read.

Now, it has taken me a while to finish this book for one reason only ... you need to take the chapters one at a time! Why is that? Well, each chapter is a story in itself! And you will want to pace yourself to avoid the repetition. I actually stumbled upon this book. It was my first Kindle purchase! Picture it ... a sunny Thursday during the work week. It's lunch time and I have just gotten paid. I am excited about making a purchase that I had been wanting for a year. When the lunch bell whistles I squeal in sheer and utter glee as I fly up the stairs to my car and speed the whopping mile to Best Buy. Keep in mind, I work at a hospital, so playing "dodge the slow moving blue haired driver" makes that one mile much, much longer! Nonetheless, I make it there, buy my shiny new Kindle, and head back to work. Sadly the only books on it are instructions and the Oxford Dictionary, and I needed WiFi to get it set up. Bummer! Why a bummer? Because after work I had to make a 6 hour journey to take my daughter to her father's house. I knew my Kindle would read a book to me, a much loved feature as I do a lot of driving, so I plotted a super quick stop at my home to download a book and then hit the highway! And I did just that ... QUICKLY! I love fantasy novels, love stories, or anything more or less Lord Of The Rings "ish". So that was my goal. I wrote "fantasy" in the search bar and a lovely book entitled ENCHANTED popped up for \$4.50! Perfect!! Three seconds later it was in my Kindle and off I went! Had I actually READ the book description I might have selected another book. It did, however, make for an interesting drive. So here I am, a middle aged woman, on the way back from

dropping off her daughter, preparing for a 3 hour return drive. I have my pop in the drink holder, a full tank of gas, my pack of Ms, and my new Kindle plugged into my stereo so I can have it read to me over the car speakers! Pure bliss I tell you!! I was looking forward to this moment all day! I'm pretty sure I was literally smiling like a twice-baked hippie as the male voice began to read... "Chapter One, Beauty and the Beast". Wait? What!?! I did not buy Beauty and the Beast! But I love the story, so I shrugged my shoulders, still happy hippie smiling, and settled in for the drive. As the story began, it quickly dawned on me that this was a re-telling of the classic fable, and I have to admit, my interest perked up. It was told from Belle's point of view. She openly states that she was disappointed in her marriage, unhappy, because she had fallen in love with "the Beast", and had a hard time loving the now "human" prince. Humm, an interesting twist indeed. I was very intrigued! That intrigue turned to amazement when Belle slips into the Beast's chamber and catches him in the act of beastly self indulgence. I believe I literally shouted "Oh My God", laughing loudly, slapping the steering wheel. And I am positive I scared the beans out of the little oriental lady passing me in the other lane. My fingers gripped the wheel and my mouth agape as the story continued, in detail, why Beauty really loved her Beast. A re-written story, indeed!! For adults only!! Thank goodness I didn't decide to listen to this with my daughter in the car. I believe I made it home in record time that night! Enchanted (Erotic Bedtime Stories For Women) is a very interesting retelling of classic stories ... Beauty and the Beast, Snow White, Goldilocks and the Three Bears, and The Ugly Duckling, just to name a few. And before you poo-poo the idea of classic stories being retold as sexual smut, let's be honest we ALL thought about it and probably wondered a time or two, "What was Snow White really doing with those 7 dwarfs"! Nancy Madore writes very eloquently and I enjoyed the tasteful and creative way she put the sizzle into these old classics. While at times it could get a little tedious, there were moments of excellent, steamy "fantasy". I personally love the way she keeps her hot story telling tasteful and sensual. If you are looking for something a little spicy to read, go ahead and indulge yourself with one of her many books of retelling the sensual side of these old classics. But savor them one at a time!~*~ Rhea

I read Fairy Tale Lust a few months ago and enjoyed it, so I figured I'd give a different erotica collection a chance. Sadly, this collection was not as good as the other one I read. I felt that some of the stories were not as well written or that the story had been done better by someone else. Some of the problems for me included no build up to the sex or the fact that sex didn't feel consual, or that the characters were poor done and that prevented me from caring about what was happening. I enjoyed the first couple of stories but the stories later on were flat, they lacked a spark I felt the

other earlier stories had or the stories I read in the other erotica collection. I also thought it was very odd to have two of the same retellings right next to each other (it was either that they were right next to each other or only one story inbetween). While there were some good things in this, for the most part, I wasn't impressed. 3 Stars.

I'm a big fan of the "fairytales retold" genre, and after reading reviews I had high expectations of this one. The writing style reminds me of victorian erotica, which isn't necessarily a bad thing, but themewise felt like mellow erotica for the comfortably feminist gentle reader. I guess my personal kink factor is a little higher than the target audience. This is NOT the style/concept of the Anne Rice Sleeping Beauty, which is vastly higher on the sexually adventurous intensity scale. That all being said, this is a fine starter novel for a Lady's introduction to erotic reading. It has comfortably familiar fairytale themes, a self-empowerment message, nothing too shocking in language or content, and a couple of quite good scenes. I would definitely recommend it to friends who have tried little erotica before, and might want a gentle introduction to pique their curiosity.
