I love to cook, especially using a slow-cooker. Being diagnosed as gluten intolerant recently, I am constantly looking for appropriate recipes. This book has great recipes, but many of them I already have. If you use any internet cooking sites, you may wish to pass on this book as you can find nearly every recipe in this book online.

I purchased this book a few days ago Last Night My wife and I cooked Up the Authors recipe for Spicy Turkey Chili It was Delicious! The Recipes are very easy to follow fantastic for the whole family interested in living a healthier lifestyle FIVE STARS!

Great cookbook. The recipes are easy to do.

I just read through this coobook, and bookmarked so many recipes it had to be almost the whole cookbook! LOL! Honestly, this is an incredible cookbook I am so glad I purchased it and at 99¢ it's a terrific bargain. There are so many delicious recipes for the person on a gluten-free diet. The recipes call for common, every day ingredients and make meals that the whole family will enjoy. I would highly recommend this cookbook for anyone on a gluten-free diet, they will be very happy with their purchase.

This GF cookbook has dozens of delicious slow-cooker recipes; many comfort foods and tasty versions of Mom's old fashioned cooking such as stews, roasts, and ham dishes. There are also many pointers for slow-cooker techniques that were new to me. I deducted one star for a couple minor typo's I found in one recipe which was still decipherable. Othewise, this book would have been a 5-star product.

I'm so excited there is a cook book for those dealing with Celiac disease. I've missed out on family gatherings along with entertaining friends. this will give me the opportunity to enjoy a great meal with little effort.

Great ideas for down to earth everyday recipes. I especially like the bread recipes with simple easy to find ingredients. I feel confident my family will eat the no questions asked

So far the recipes we've tried have been very tasty and easy.
