Customer Reviews

“Terrance Talks Travel: A Quirky Tourist’s Guide to Cape Town” by Terrance Zepke was a very concise travel guide on the tourist spots in and around Cape Town, South Africa. Every time I read one of these guides, I want to plan a trip to that particular spot. I really liked how the book is set up. It starts with how to get to Cape Town, which is quite the undertaking, but there are different options, not only flying, but driving, sailing and even a scenic train ride are all available to get from the main airport to Cape Town. Then the book breaks into things to do and see on the way to Cape Town proper, such as safaris, which are once in a lifetime things to do when planning a trip such as this. At the end of the book, there is a bonus supplement that is actually all about planning the safari, what type of safari to do, where to go for what type of animals that you are interested in seeing and so on. For such a slim book, there is a lot of information packed into it. There was one confusing area, when whales are discussed and I think that she was discussing killer whales in particular, but it seemed like she was discussing whales in general and made it confusing for the reader.

I always find it pleasure to read Terrance Zepke’s books. This book is filled with unique things to do on your visit to Cape Town. For the traveler who wants more than standard journey this is a must read. If you want things to experience that are not well known take time to peruse this book. She includes a description of her top ten things to see on your trip. Filled with knowledgeable information and numerous links so you can dense research. You can go to Cape Town armed with information which will give you a delightful adventure. A bonus at the end of the book a safari sampler is included. This safari sampler gives many details which will help you add the ultimate safari adventure to your vacation. If you like what you read here there a list of her other books is prided for you, I encourage you to read this book before you venture to Cape Town.

Terrance Talks Travel “the guide to Cape Town makes me want to travel to South Africa. He

makes it sound bustling with things to do in Cape Town, despite saying that if you're driving and you've reached the end of the road you're there. He goes over the options of how to get there by land or air. Amid going over his top ten picks for the area and the touristy things to see and do he gives you fun facts about the area as well like the cannon that fires every day from signal hill in Cape Town. He goes over all the best places in town for food, shopping, nightlife, hotels, even spiritual relief. The What to pack list would be helpful to include in all guide books. The brief history of the area was interesting and he even include a bonus on safari information.

What's an Africa vacation without a safari?
