Confessions Of An Illuminati, Volume III: Espionage, Templars And Satanism In The Shadows Of The Vatican

Synopsis

Zagami pushes the boundaries once again with this unique and personal journey into the mysteries of the secretive world of the Dark Cabal. In the third book of this acclaimed series, Zagami explores a variety of cryptic topics that are always verified with documentation. This is not a work of fiction, but a tool with which readers can comprehend topics that range from the truth about the mythical Knights Templars to the Jesuits and their Vatican espionage game. Zagami uncovers the most credible candidates of the Grail mystery with proven testimony from an official saint of the Catholic Church. Zagami also upholds what he calls "conspiracy reality" • a way to fight back against the system of lies and deceit responsible for the rise of Satanism in the Vatican, showing in the process the magical practices of the Illuminati.

Leo Lyon Zagami is the author of Pope Francis: The Last Pope?: Money, Masons and Occultism in the Decline of the Catholic Church, and the Confessions of an Illuminati series.

Thank you

Not the best of his books, not the worst.

The book is very informative. Has a lot of good information.

Written by an insider, occultist, musician, charismatic showman "a man larger than life"

This book while written about occult and religious groups of historical importance, published in 2017, contains much information that is current and of contemporary issues. As chapter 1 ends the author ventures into the unholy grail of "left wing liberal politics". A communism façade for the elite is in the New World Order of Obama, Hillary, and Pope Francis who is described as a communist and one deceived by a Satanic farce. George Soros is acknowledged as an invisible master where "fascists" of the New World Order impose their visions. On the same page in an email sent to a senior Democrat by astronaut Edgar Mitchell as to an impending space war and the Vatican's knowledge of alien life. It's being brought to us courtesy of a contiguous universe. Author Zagami unloads his contempt for contemporary Scandinavian society as "the most subdued and conditioned in the world and was the first to sell-out to the globalists". Norway and Sweden are eliminating cash in favor of electronic currency, ala the New World Order, and to global slavery under the Illuminati masters with the support of the CIA and the Mossad. Napoleon was a disciple of Adam Weishaupt (founder of the Illuminati) and of secret knowledge within the Vatican of the occult and arcane side of the Catholic church. Mystery schools of Weishaupt's Bavarian Illuminati included many Rosicrucians. Bloodlines are important markers in the dynastic powers of the Illuminati and in many secret societies such as Skull and Bones, a Yale institution dominated by the Bush dynasty for decades. The occult and many unconventional matters are found in chapter IV, all beyond this reviewer's template, and are mentioned only for readers' references. Included are the twenties monthly magazine the Occult Review, ceremonial magic and demons, an occult science formula, an illuminati/utopian/theosopher community, a portal in Switzerland for extradimensional forces, the Magic of Abramelin, ... The links between ancient Egypt and Satanism are well defined in their perverse rituals that practiced human sacrifice, an Illuminati fixation. Sumerian and Mesopotamian cultures, as well as those in European and Asian societies, performed human sacrifices as a way to appease the gods. Even today in areas of Iraq, death and brutality are daily scenes where the mercenaries of the New World Order prevail under Isis. Windswept House--A Vatican Novel by Father Malachi Martin offers an unprecedented insight into the Church. Father Martin was a close insider to the Vatican's hidden secrets which he frequently discussed on the former Coast to Coast with Art Bell radio program "Among the cardinals and the hierarchy there are Satanists, homosexuals, anti-papists, and cooperators in the drive for world rule." The Encyclopedia of

Espionage describes the Jesuit equivalent of the CIA headquarters as having at least an equal in size archive. In Canada many Jesuits are trained at Saint Mary College. In the U.S.A. the Knights of Columbus is aligned with many Jesuits but is described by author Zagami as overtly fascist and is part of the New World Order with Jeb Bush as a luminary member. Zagami writes of the Knights of Columbus as executors of the Jesuit agenda. George W. Bush continues his lengthy and close relationship with the Order and its long arm of the Catholic Church. In the final pages author Zagami writes of the metaphorical, the spiritual, the metaphysical, evil manifest, and of society without God. On Page 303 we find reference to the Magic Portal, an extradimensional portal created by the Illuminati of the Golden Rosicrucian tradition (Jesuits). On the same page are writings from Plato:... in the space of one day and a bad night all in mass sank beneath the earth and the island of Atlantis swallowed by the sea disappeared.

Leo Zagami has the courage to share information that could get many people killed. His work is documented with sources and reference. I am proud to support his book purchasing it and talking about it on my radio show "Love, Guns & Freedom"

This author propagates the myth that pagan magic is real. I cannot figure out whether he fully believes this or whether he is being sensational for the purposes of his paying audience - probably some of both. Zagami is very intelligent and has compiled a massive amount of information. Histories and lists of people from the occult world abound in this book. So much so that it is often very difficult to read. Not because the reader is obtuse, but because reading it is like wading through piles of 3 x 5 cards at times. He needs the help of a heavy-handed and trusted editor (well-versed in the occult world) to make his book more readable. I haven't read his other books. Zagami is likable and there is factual information throughout his book that is interesting (and why I bought the book in the first place), but by including his life-long pursuit of the occult, and his desire to evangelize his readers into it, he muddies the whole. But maybe that's what he wants - to be so esoteric as to keep us uninitiated uninterested and the initiates inclusive?

Very interesting, very informative, and I think accurate. A lot of information packed in the book.
