# Kaguya-Hime: An Elementary Japanese Reader (Japanese Through FairyTales Book 1)

## Synopsis

(look inside is not kind to formatting of Japanese text. Still trying to get this fixed, while still allowing flowing text.) Practice reading Japanese with the classic tale of Kaguyahime. Taketori is a lumberjack who one day encounters a shining stalk of bamboo, upon cutting it open he finds a small beautiful child. He takes the child home and raises her as his own. She grows up into a beautiful princess, but there is one problem. She becomes very sad every time she looks at the moon. This book contains parallel text side by side along with a running glossary. Practice your Japanese and increase your vocabulary in a fun and interesting way. Included are several illustrations done by Kakuzo Fujiyama who illustrated this same tale over 100 years ago.

## Book Information

File Size: 2737 KB

Print Length: 45 pages

Simultaneous Device Usage: Unlimited

Publication Date: October 13, 2015

Sold by: Digital Services LLC

## Customer Reviews

For the price it was worth. Although the book does contain errors in spelling, English and Japanese. (Olight command) vice polite, mottekikite vice mottekite, ect.

This is a cute Japanese tale that is very popular. Mothers often read this to their young daughters. I read this repeatedly for the purpose of learning kanji. It is a very good learning tool.

I love that it has furigana which I say is essential in reading Japanese as a beginner. It's also entertaining.
