# German: Learn German With These 500 Phrases

## GERMAN

Learn German with These

*By Karl Schumann*

## Synopsis

Even though languages contain thousands of words and phrases, at least you can get started by memorizing some of these common sentences and expressions. It's a fun, easy travel guide with simple things people say in everyday situations. You will learn exactly what a German person would say, so you can be confident that you are being taught correctly. Topics include: Common questions Conversation related to work, religion, and hobbies All kinds of small talk Explaining personal data Money matters, the weather, and taking pictures What to say in case of an emergency Asking directions And much more! So are you looking for a quick, simple, easy-to-use language guide? Then why not pick up this one and find your way in a foreign country or get some of the basics down with these short sentences?

## Customer Reviews

I have always thought that learning a new language can be very hard. But after having this book I found out that all you need is courage. Courage in finding a great book that will offer you what you need and courage to do the learning process right away. Learning German is not as easy as we think, and that is what I like about this book, . I think this did a great job in compiling the commonly used phrases as well as learning the basics of the language such as pronunciation and grammar.

A very simple guide to help one learn German phrases easily. Every day sentences translated from english to German which will help any beginner become and expert in no time. Answering the usual questions in German is a cinch and getti. ng around asking for directions was never easier. I already

know three languages and this book has helped me to study my fourth. Recommended!

I like the book. It is what it says it is, namely 500 phrases spoken in English followed by the German translation. Most of the phrases are useful. My audiobook was missing words the words between 120 and 150 and that's the only reason for 4 stars instead of five.

Its a great method, but I really think he attributes a bit too much to himself. Essentially is the same method that has been used for millennia but with a few minor improvements. No need really to buy more than one of this books for every language; is a matter o creativity rather than different methods.

A good book for me as a beginner - it stood as my foundation and guide on my first time journey of learning the German language. It was a good grabbed for me and made the learning easy, good grabbed.

Just like what the introduction said that some people wanted explanation about grammar and verbs, other just wanted simple phrases to memorize for when they are on vacation, or simply just conversation starters or something. This book is perfect for those who want the last. As I have been trying to digest this book I wanted to let you all know that this book is equipped with most common phrases that you will need in case you will be traveling in Germany or acquainted to a German, might be a good surprise that you are able to understand and speak even a little German with them as I am a very busy person and have a German client. I got this book for a fair price and able to post this review. So, wie sagt man das auf Deutsch?

The phrases are useful and real, I think the author put quite an effort into this book.

Great resource. Toll!
