Customer Reviews

I've read so many books on WWII; I just find history interesting. But it's also refreshing to read about women and their accomplishments during that time. It's not common to read about heroic women during that time. I highly recommend this book and it is a great read.

So interesting. This book was beautifully put together. It goes into history that I had never heard of. It brought so many historical moments to life! I thoroughly enjoyed every page I couldn't put it down.

I won't recommend this book. The web offers more information about these ladies than the book offers.

Good Read

Good start on women in service. Will follow up on bio at end of book. Need more information on each one

I would have enjoyed having a bit more information about these women in the book. It's nice to read stories about women and WWII and their contributions.

Such an interesting and well written book! Imagine as women were in fight in the war...Incredible! Anyway, I just have found one mistake: Virginia Hall (1906-1882) I think it is 1982, instead of 1882. But apart from this, it is an ebook so easy to change the numbers. I can recommend it! Thank you!!

Disappointing. Nothing but a pamphlet with 12Pages. It should be at least 150 pages. I knowThat these people in the pamphlet had moreInformation than that.
