Best Sellers Rank: #140,189 in Books (See Top 100 in Books) #114 in [Books > Travel > United States > Northeast > New England](#)

## Customer Reviews

Jen Rose Smith came to Vermont for the mountains and lake, then stayed for everything else. She spends her time exploring the state on bicycles and backcountry skis with her husband, Daniel, searching out the sweetest picnic spots, swimming holes, and snack bars.

This edition of MOON VERMONT, written by a different author (Jen Rose Smith) than previous ones, has a different perspective on Vermont from what has been said before, and quite an interesting one, too. It has everything you need to know about the Green Mountain State, with the exception of each area's radio stations. There's plenty in here for both potential tourists and potential relocates, making it perfect for anyone remotely interested in Vermont.

We're Vermont regulars, visiting family at least once every year or two. My husband got this book to force us to look at the state in a new way (like reading the manual after you've been using the product for a few months), and went with the most recent guidebook. Two days into the trip, the book's already directed us to a few "new" spots (courtesy of the "Best of Vermont" suggested tour, which we're not following exactly, but using for reference), and we've used it to keep tabs on places we've been before. So far, really useful, probably enough info to mine for the next few years.

Excellent travel guide. Plan to use when planning trip for May of this year.

Very helpful and easy to read. I look forward to visiting some intriguing places!

Greatly formatted travel guide.

As a Vermonter with family coming to visit, I wanted to create a thoughtful visit. I picked up this guide and was pleasantly surprised at how comprehensive, not overwhelming, and jovial it was. Not only am I able to put together multiple day trips for my out of town visitors, but I am also able to appreciate where I live even more!

As a Vermonter, I wanted to be able to explore my state with more insight and potential for adventure. This guide was fun to read, easy to use, and helped me find some hidden gems! Highly recommend, great as a gift, too.
