The Ballet Collaborations Of Richard Strauss (Eastman Studies In Music)

Synopsis

Richard Strauss contributed music to several ballets during his career, collaborating with prominent dance artists of his time. His ballets include an unfinished *Die Insel Kythere* (The Island of Cythera), 1900), inspired by French Rococo paintings; *Josephslegende* (The Legend of Joseph, 1914), choreographed by Léonide Massine for the Ballets Russes; a 1923 *Ballettsoirée* with dances by Heinrich Kröllner, showcasing the Vienna Ballet and including Strauss's arrangements of music by François Couperin; *Schlagobers* (Whipped Cream, 1924), a "Comic Viennese Ballet" choreographed by Kröllner; and *Verklungene Feste: Tanzvisionen aus Zwei Jahrhunderten* (Faded Celebrations: Dance Visions from Two Centuries, 1941), premiered in Munich with meta-historical dances by the dancer-choreographer team Pia and Pino Mlakar. In *The Ballet Collaborations of Richard Strauss*, Heisler considers Strauss's ballet scores alongside story, *mise-en-scène*, and choreography, revealing Strauss's shift from a parodic conception of classical dance in the years leading up to World War I to a belated obsession with Romantic-era ballet in its aftermath. Heisler explores issues central to Strauss's relationship to modernism: his mining in *Die Insel Kythere* (1900) of the decorative aspects of dance, suggesting a shared sensibility with *fin-de-siècle* Jugendstil and a critique of Romanticism; the dynamics of collective creation and Strauss's penchant for parody in relation to *Josephslegende* (1914); his stance on interwar cultural politics through the 1923 *Ballettsoirée* and *Schlagobers* (1924); and *Verklungene Feste* (1941) as this composer's autumnal meditation on the conceit of music and dance as vehicles for transcendence. *The Ballet Collaborations of Richard Strauss* is a richly interdisciplinary study that promises to nuance the popular, critical, and academic reception of this ever-popular composer. Wayne Heisler Jr. is Assistant Professor and Coordinator of Historical and Cultural Studies in Music at The College of New Jersey.

Book Information

Series: Eastman Studies in Music (Book 64)

Hardcover: 361 pages

Publisher: University of Rochester Press (September 15, 2009)

Language: English

ISBN-10: 1580463215

Customer Reviews

Build(s) a case for Strauss as a spiritual ancestor of Parisian neoclassicism. . . . Lucid detail. . . . Considerable interdisciplinary virtuosity. . . . Energetic sleuthing. . . . A careful teasing apart of the modernist implications of nostalgia, irony, pastiche, and so on. . . . Rich and sensitively conceived. JOURNAL OF MUSICOLOGICAL RESEARCH (Charles Youmans) Admirably clear in structure. . . . The nearest thing to a definitive study we are ever likely to have. . . . Will (help evade) the boundary traditionally maintained between musicology and dance studies. . . . Expertly carried out. . . . Entertaining prose and robust conclusions. MUSIC AND LETTERS (Hugo Shirley) This is a breath of fresh air, and it not only expands Strauss scholarship, but the (all too separate) historiographies of dance and music. --Marian Smith, author of Ballet and Opera in the Age of Giselle "Wagner does not dance," Nietzsche once asserted. Richard Strauss, too, sometimes used dance to differentiate himself from Wagner, but in music rather than words. Though dance was not Strauss's principal genre, it played an important role at critical times in his life: the pre-Salome period, the unstable Weimar years, and during the era of National Socialism. Heisler's book on the ballet collaborations fills a large gap in Strauss research and twentieth-century dance studies in general. A must read. --Bryan Gilliam, author of The Life of Richard Strauss and editor of Richard Strauss and His World Wayne Heisler demonstrates with brilliant clarity that dance plays a central role within the composition and study of music. Discussing the Richard Strauss milieu, he also reveals a hitherto little-known, but fascinating, aspect of German dance history. His book is a model of meticulous, interdisciplinary scholarship. --Stephanie Jordan, author of Stravinsky Dances: Re-visions across a Century A truly interdisciplinary work. . . . Extensively illustrated with an abundant mixture of pictorial and musical examples . . . Meticulous research. . . . A valuable addition to musicological literature on Strauss and to emergent dance-musicology. JOURNAL OF THE SOCIETY FOR MUSICOLOGY IN IRELAND
