love it love it love it

I got this for my nephew who is 8. He has really been getting into cooking. He loved this book and it has all kinds of recipes from snacks to dinners. My sister said he has made a few of the dishes from the book and did not have any problems. I would say it could use a few more pictures but other than that I really like how it is presented as a real cook book and not some cheesy kids book.

Bought as Christmas gift for our 8 year old granddaughter and she was thrilled! She has made Cinnamon French toast twice and is eagerly waiting to try something new! Of course she needs supervision so it is up to Mom and Dad. The recipes seems simple enough without being boring and I am sure this is just the start of her healthy culinary education. Good value for the money.

love it! my 10 year old has made many items already. Made us chicken teriyaki for dinner last night! Nice to have a cookbook that has things every kid will eat and step by step directions that are easy to follow. It is actually helpful for me as an adult who never really was taught how to cook! Great tips!

Bought for my 8yr old grandson who loves to cook. He likes all the recipes and says they are easy to follow. Very yummy spice combinations and also helps him create weekly menus

Recipes are easy to read for my 7 year old, and there are enough pictures for him to choose recipes he'd like to try. The ingredients are mostly things I usually have on hand, so if he decides to make something on a whim, we are usually able to do it.

Our 8 yr old loves this cook book. Easy to follow directions, great pictures and lots of yummy recipes.

Great book! Recipes are easy and a good mix of difficulty level. The pancake recipe had the incorrect amount of buttermilk. I should only be half the amount. Other than that, I love it. My college age niece actually wanted it for herself after my daughter showed it to her!
