Tiny Houses 2017 Wall Calendar: Mindful Living, Small Spaces

Synopsis

Imagine what it would be like living in only 100 square feet of space. Many people are embracing the simple life by downsizing their homes and possessions for more mindful lifestyle. The Tiny Houses wall calendar features clever and creative homes that fit the dream of less-is-more. The perfect gift for those yearning to simplify their lives. A year of creative tiny homes on your wall. Frameable artbook-quality printing. Printed on FSC® Certified Mixed Source Paper with soy-based inks. Published by Amber Lotus, an independent carbon-negative US company that has planted more than half a million trees since 2008. This calendar features US and Canadian legal holidays, phases of the moon, and important observances of the world's major religions. Whether it's an 80 sq. ft. eco-capsule in an open meadow, a tiny cabin on a rock in the middle of a river, or an urban architectural wonder with a footprint of just 474 sq. ft., these tiny houses make a big statement about sustainable living. With a wide and popular appeal, the Tiny House movement is an exciting trend popping up all over the world. Through innovative designs and human ingenuity, the term tiny houses has evolved to encompass an exciting array of small dwelling types — yurts, cabins, tree houses, and even converted buses and shipping containers, to name a few examples — all with the emphasis of lowering our carbon footprint and embracing a simpler, more planet-friendly way of life.

Customer Reviews

Well, they are tiny houses, but several of them are too modern for my taste. I thought they'd all be like the cover photo, wacky little dream houses perched precariously on tiny islands or in other

photogenic, out of the way places. One of the houses seems to be an invisible cube suspended over nothingness, and the pointy house teetering over its car is going to make me nervous for the entire month of May.

This is a great wall calendar that includes a lot of the less well-known holidays in American culture, like Pagan/Wiccan, Hindu, Islamic, and Buddhist ones. Even eclipses, Mercury retrogrades, and "Random Acts of Kindness Week" are included. Phases of the moon, including their exact times, is also information that this calendar provides. The recycled paper still has a professionally glossy feel that, in practical terms, provides a little sturdiness and protection if you hang this calendar in a high-traffic area like the kitchen. Each month's photograph is accompanied by information about where it is located and in most cases, who designed it- so if you like, you can use the internet to explore tiny house sellers like Nice Architects and Tumbleweed Tiny House Company. I've bought Amber Lotus calendars before and been quite satisfied with them, but this is my favorite one yet.

The very tiniest girl in our family, who takes up the tiniest amount of space and has the tiniest room and wears the tiniest clothes, thought this calendar looked interesting. So she put the calendar on her tiny wall in her tiny room. It's amazing how much noise comes out of the tiny girl but, you know.

Terrific pictures, sturdy paper, large enough squares to write daily notes. Shipped fast and packaged well so the calendar was not bent. Looks wonderful on the wall. Highly recommend.

Love the pictures, wonderful, unusual calendar.

I wish this had more pictures or more information about the houses but other than that I really like it.

Interesting calendar

Buy all of our calendar's from because of all the choices. The quality and size are just what you would expect when buying a good calendar. Last year was outhouses this year Tiny houses both are keepers.
