There is no better map of Michigan in existence. If you're traveling anywhere in this state you must have this book. Even in this day of smart phones and GPS maps nothing beats a good old paper map for reliability and readability. This book also provides a lot of historical data and is a good read even when you're not on the road.

We wore our last one out!!! The information in this Atlas is great. It gives a whole new perspective

as you travel to and through the counties. Many conversations have developed with local residence as you visit their county. It's invaluable! Thank you.:)

Great maps and lots of interesting information about them. I used to be a fan of the Delorme gazetteers, but since the scale (for Michigan) changed, they are no where near as good as this atlas. I'll buy another when I need a new atlas.

I got this primarily for boat launches. Its great because not only does it show ALL the boat launches, and way more compared to the Delorme Michigan Atlas and Gazetteer....It rates each boat launch on a scale from A to E, with A being the biggest and highest quality boat launch. I also like it because it is ring binded so it easy to fold without ruining the bind.

This man is amazing. (No, I don't know him beyond his work.) I feel so lucky to have purchased this atlas after trying to continue to explore Michigan with my very old county map book. I am stunned at the sheer amount of interesting, necessary and accurate data Mr Brown has captured for our use. The brilliance of combining old cartography with current digital advances has certainly produced a new gold standard for evaluating all atlases from this point forward. Time to hit the road!

Michigan information is what you want it will probably be here. Nobody else even makes an attempt to present the quantity found in this atlas. If your vision is a little on the weak side you will need a magnifying glass to read the fine print. This is not the best atlas for a quick look in route but one to plan your moves over a cup of coffee.

Perfect ereplacement for my old Michigan map, with a lot more travel information.

This is a very good map and it tells how & when each county was started. Well worth the price.
