This is THE best moderate cooker-based cookbook. So much idea has been put into every formula's outline - particularly, how to make it simple on the cook, and also how to accomplish a dish that is tasty and splendid, rather than simply the hot, insipid mush many moderate cooker formulas can at times produce.I have a considerable measure of cook books, bu .this is my most loved cook book.I profoundly suggest this book.

A delicious compendium of slow cooker recipes. The recipes are well written and easy to follow so you can use substitutions such as quinoa for rice. The hubby has eaten them all and he's a picky eater.

This is THE best slow cooker-based cookbook. So much thought has been put into each recipe's design - specifically, how to make it easy on the cook, as well as how to achieve a dish that is flavorful and bright, as opposed to just the hot, bland mush many slow cooker recipes can sometimes produce. I have a lot of cook books, but....this is my favorite cook book. I highly recommend this book.
