The family is heading for the Tetons this spring and we needed a handbook for the area. While I'm sure that there are books out there with a more narrow scope and more detailed info, this is perfect for my needs. Lots of info on the parks, lodging, food, etc with prices and contact numbers. I looked at this in my local book store before I purchased to make sure it had what I wanted, and after comparing it to 4 other very good travel guides, this came out on top. I have not used it yet, but after checking it out I'm fully confident that it contains all the info we'll need for a great vacation.

Great tips on things to see/do.

Looking for - in fact - a Lonely Planet guide, I discovered Fodor's. Planning a trip to Montana and Wyoming, it was just what I needed. And it delivered! Including important information of Bad Lands NP, which is actually in South Dakota. I still have to go, so I cannot confirm all the information is correct. But to me it seems pretty accurate. What I thought to be a bit silly, are the small columns "Word of mouth": more for the kids (up to 12 years) between the readers. And, the use of more than always and only the orange color (definitely the "house color" at Fodor's), would be very appreciated... Better and more detailed route cards, plus more colors would make this guide state of the art and competitive to my very own "benchmark": LP.

I'm planning on taking my kids to Glacier National Park (NP) and Yellowstone. I was wondering what other things to see along the way. This book had a lot of great suggestions, and the recommended itinerary was almost perfect. As with the other Fodor's books I have looked at, it's really well organized.
