# Pippi Goes To School

## Synopsis

Pippi Longstocking has her own special way of doing everything, even going to school. She's not about to walk, she'd rather ride her horse. And Pippi can't be bothered with spelling and math; she's more interested in drawing on the floor and finding out when Christmas vacation starts. Pippi may be ready for school, but is school ready for Pippi? Pippi Goes to School is a great introduction for young children to the wacky, wonderful world of Pippi Longstocking.

## Book Information

Lexile Measure: 820L (What's this?)

Paperback: 32 pages

Publisher: Puffin Books; Reprint edition (July 19, 1999)

Age Range: 5 - 8 years

Grade Level: Kindergarten - 3

## Customer Reviews

Pippi Longstocking's long red braids are the very image of childhood rebellion. In Pippi Goes to School, our heroine's insurrectionary spirit is hardly dampened by her first taste of academe. Her friends Tommy and Annika head off bright and early at 8 a.m., "hand in hand, swinging their schoolbags." Pippi can't be bothered to get going until a little later: "At exactly ten o'clock she lifted her horse off the front porch, and a little later all the people in the town ran to their windows to see what horse it was that was running away." It's just Pippi headed for school in her own inimitable fashion. The teacher's vain attempts to teach her math and art and music fail miserably. When asked to add 7 and 5, she retorts, "If you don't know that yourself, you needn't think I'm going to tell

you." It's not that Pippi's naughty, it's just that she has her own way of doing things. At the end of the day, it's she who's consoling the exhausted teacher: "You understand, Teacher, don't you, that when you have a mother who's an angel and father who's a cannibal king, and when you have sailed on the ocean all your whole life, then you don't know just how to behave in school." This slender paperback picture book is neatly adapted from the Astrid Lindgren classic Pippi Longstocking, with assistance from Lindgren herself. Michael Chesworth's lively, modernized illustrations make clever reference to the original edition, without being slavish. (Ages 4 to 8)--Claire Dederer

I love the Pippi Longstocking books-- love, love, love. Kids and adults both can enjoy them. I ordered this book hoping for something I hadn't read before, and discovered that it's just an excerpt from the first Pippi Longstocking book. The complete episode in the original book includes a battle of wits between Pippi and a cruel administrator. This excerpt only includes Pippi driving the poor teacher to distraction, and seems like an endorsement of teacher abuse, rather than the triumph of Pippi's generous spirit over a nasty, narrow-minded system. I'll have to throw it away-- I would never give it to any of the kids I know. I guess I'll have to just get them the whole original.

Oh my daughter really loves the Pippi Longstocking books! They were one of the first books we have bought for her, back than she was just 1 year old if I recollect correctly, so normally way too young to understand what's going on, but they were nice for reading aloud. Now she is 4 and she starts to read them by herself, or we read them to her in the night. Goes to school might me just a short story, but as we had bought the Turtleback Edition, it means it will last way longer than most other children books we have bought any one thing is sure, all other books for our kids we will buy, will be Turtleback or something like it. The price difference from special bindings to hardcover (if available) are so small, that you always should consider them oder the normal hardcover. You get what you paid for. Ours is still in very very good condition!

Astrid Lindgren has been my favorite author for children books! She is more known in Europe, as we grew up with her books and adventurous Pippi!

Gift. rad

as expected

grandkids love the book

8 year old grandson loves Pippi books!!

Gotta love pippi
