Book by NASCAR

This was a book I bought for a special needs child who was in the hospital. He is all about NASCAR. His Dad or Mom would walk backwards with the book open and he would walk just to see the cars in the book. It helped to get him to exercise his muscles which had grown weak while he was in bed. This is one of his favorite books. I would like to thank again as they helped me find this book. I e-mailed them about what I wanted and had an answer back in less than 10 minutes. I was very impressed with how quick the response was and how quick the book was in my hands.

I had a hard time finding a good book about NASCAR for my son when he turned 5. He's a huge fan. This book is perfect. He's going on 7 now and still enjoys this book. It has lots of great photos of real cars and drivers - not generic painted race cars that a fan wouldn't recognize. It has photos of the pit crew action, the tracks, actual racing photos, the parts of the cars and lots of driver and car photos that your child will love. Some of the drivers and cars included are Jeff Gordon, Tony Stewart, Jimmie Johnson, and Matt Kenseth. Great book for a 4 - 8 year old fan. The design is neat, too with

the rubber handle with the NASCAR logo, and because it's a board book it can be carried around and looked at over and over again without getting damaged! Great gift for a true fan - your child won't be disappointed.

It's a nice book; great as a carry along. However, it was a bit too much for my almost 5 year old nephew who is a huge NASCAR fan.

My three year old loves this book and asks my husband to read it to him almost every night. It has held up very well. It appears that it was published a few years ago, but that doesn't bother my little guy!

My son loves this book and has been carrying it around all over the house. Good pictures and easy words.

I bought this book for my 4 year old son who loves Nascar. The book is board book with a handle that he can take with him anywhere. It has great pictures and lots of information about the drivers and his favorite cars. Great book!
