The Kindle Publishing Bible: How To Sell More Kindle Ebooks On (Step-by-Step Instructions On Self-Publishing And Marketing Your Books) (Kindle Bible Book 1)

Synopsis

How To Sell 53% More Kindle Ebooks In Just 7 Days! Believe Publishing on Kindle Should Be Fun, Profitable and Rewarding! If you want your book to become a Kindle best seller I can show you how. In *The Kindle Publishing Bible*, you will learn how to: Increase Your Book's And Google Search Traffic By 423% In 30 Minutes! If you're a self-published author without a large platform or following, you will never be able to promote more than the legacy authors with huge marketing budgets. But you can outrank them on search almost every time! Why? Because 99% of publishers don't know how to increase their search engine rankings in Amazon and Google. But I do - and I'm going to show you how in this book (it won't cost you a dime to implement these strategies either). Most authors (even the ones with publishers and big marketing budgets) have no idea how to do keyword research, add the right search keywords when they publish their book, or use keywords in their book description without it sounding like it was written by a robot.

For New Authors: Step-By-Step Instructions With Pictures! If you're a first-time Kindle publisher or technologically challenged then this book is for you! I even had my grandma follow the step-by-step tutorials and she gave it a big thumbs up for easy-to-use instructions. The playing field has been leveled with ebook publishing, and if my grandma can do it, you can too!

For Existing Authors: How To Sell More Books In 5 Days Than You Did Last Month! I'm going to share with you my KDP Select Free Promotion Marketing Formula for getting tens of thousands of readers to download your ebook in just 5 days. All you have to do is read the Marketing Formula instructions and follow them (it takes about 3 hours of work to get thousands of new readers using this system).

How to Sell More Books on Kindle Using Your Book Description! If you think your book is going to sell itself, think again! If you're a fiction author or novelist, you have to show your readers the story and engage them, or they won't buy your book. And if you're a non-fiction author, you have to tell potential readers how your book is going to help them solve their problem fast or they'll click away without buying. In this book, you'll learn my "Show and Tell" system for selling more books on Kindle by giving you readers what they want and overcoming objections in your book description. Great marketing doesn't require having a huge marketing budget or publisher behind you, but you still need exposure and a great offer. This book will help you get more exposure with Amazon search, Google search, word of mouth, and other free but effective marketing strategies. You have to make buying your book an irresistible offer so that when browsers get done reading your book description they say, "I have to buy this book!" You can't do that without a strategic plan and a well-written book description.

Bonus! Video interviews with best-selling Kindle authors as they share their most powerful book marketing strategies.

About The Author My poetry was first published at age 16 in *Teen Ink* magazine and I started writing books at

age 19 but had no idea how to get my message out to anyone other than my friends and family. Finally, I discovered Amazon's Kindle Publishing platform and published my first book on Kindle on February 10, 2012. Since then, I've sold over 100,000 ebooks on Kindle and now earn a full-time income as a part-time author. I've since helped thousands of self-published authors like you sell more books on Kindle. If I can do it, you can too! Learn how to sell more books on Amazon today. Scroll up and grab your copy now.

Customer Reviews

Well written and full with practical advice. I will start to follow the suggestions asap on my books and see if it works.

I had some problems getting my books to sell. They weren't doing nearly as good as I hoped so I looked around kindle and decided to buy this book. I got so into it that I finished it in 1 take before I went to bed. It was great. I realized a lot of mistakes I was doing with my book categories, my free

promos, my book description, and I feel excited to start right away to correct these mistakes and also use the new things that I learned. I'd say that it was a bit too short but The author probably covered everything he knew about publishing and marketing and there were enough details on the subjects. Thanks Tom!

I was able to immediately start choosing better keywords and categories, and I got a few book sales right away! This book was just long enough to feel informational, but not so long that I got tired of the material.

Insightful.

I have so much to do over the past couple of weeks, I didn't get a chance to read the book until tonight. I have to say that with every page my respect for the author grew. Tom clearly knows his material. I think that for anyone looking to get started writing books for , The Kindle Publishing Bible is a valuable resource. What really impressed me was that the author "sprinted to the finish" instead of just offering up fluff. I loved the useful tips and links. I found myself with my Macbook open and taking notes. I will be going back to this book several times in the coming weeks, I'm sure. Because I am an "online guru" and apps expert, I can think of many ways to extend the reach and market penetration for this book. I'll be sharing those ideas with the author on his Facebook page. Whenever two or people come together to share an idea, each leaves richer and better off for the experience. Thank you Tom for a well written book! Full Disclosure: I had never heard of this author until two weeks ago when I bought the book.

This book has some very helpful advice for kindle publishing newbies. Not all of the advice did I agree with or heed, but what I did take away and applied, worked. Highly recommended!

This was the first book I ever read on "kindle publishing" and it literally blew my mind. The information was so new and so overwhelming that when I finished, I had to back away from it and attempt to digest it for a while. Then, a month or so later, I picked it up again and I was able to really internalize all that the author was telling me. Learning is "connecting new information to old information you already have" - and during my second read I was able to connect the dots better - because I had read several articles online that barely skimmed the surface of the topics that this book digs deeply into. The only thing I don't love about this book is at the very very end there were a

few to many video links. I think one or two would be fine. But this is just slightly inconvenient. I'm so glad I took the time to read this book twice. It not only made me well informed, the author is so very encouraging that he made me brave enough to act on the amazing information given.

Very easy book to read. I actually read it all in one day. I really like the transparency of the writer, and you get a lot of valuable bonuses and resources. Recommend
