## Customer Reviews

My 7 year old daughter (will be 8 in a couple weeks) LOVED the first book but was a bit scared by the second so we are going to hold off until she's a bit older.

Mermaids are all the rage right now. Anything that will get kid's attention and get them reading is

great. Purchased for an 11 year old, but could probably span ages 8 thru 13.

I HAD to purchase this set for a few of the girls in my 5th grade class. They have devoured this series. These books are great for upper elementary students.

For a twelve year old girl. Six books in this set written between 2003-15 that do a good job of keeping details matched up. The stories are told from the viewpoint of 12-13 year old Emily, a girl who discovers that she is half human- half mermaid (whatever clothing she's wearing when she gets more than waist deep in the water blends into the merform during the transformation) no nudity or bloody violence (not all that much of any violence), less "bad language" than you'll hear in a church sermon. Plenty of adventure and not a bad series whatever your age/gender. It isn't H2O Just add Water or Mako Mermaids but your mermaid fan will like these books.

My daughter is 9 and loves this series! She hasn't finished all the books yet, but really was excited about getting the box set!

My 8 yr old daughter is LOVING this series! She loved the Nevergirls too, but this one is her favorite. Definitely recommend if you have a daughter who loves mermaids.

My 8 year old LOVED this series, she finished reading it rather quick. I definitely recommend this

It came right away and the books look in perfect condition just like my step daughter likes them... thanks so much these are perfect. Made a happy young lady smile... she loves these books
