# Pirates Of The Caribbean

## Synopsis

Pirates of the Caribbean is one of the most popular and beloved attractions in Disney theme park history, and can be found in each Magic Kingdom Park around the globe. Pirates of the Caribbean: From the Magic Kingdom to the Movies will illustrate how the scalawags and buccaneers made the voyage from sketches to reality, evolving from early story concepts to adaptations and changes as it moved into each of the parks around the four corners of the world, to the very latest ideas for show enhancement.

## Book Information

Paperback: 144 pages

Publisher: Disney Editions (November 6, 2005)

Language: English

ISBN-10: 0786856300

ISBN-13: 978-0786856305

Product Dimensions: 8.6 x 0.6 x 11 inches

Shipping Weight: 1.6 pounds

Average Customer Review: 4.4 out of 5 stars 24 customer reviews

Best Sellers Rank: #1,091,547 in Books (See Top 100 in Books) #27 in Books > Travel > United States > Florida > General #51 in Books > Arts & Photography > Performing Arts > Theater > Puppets & Puppetry #284 in Books > Travel > Specialty Travel > Family Travel

Age Range: 1 and up

Grade Level: Preschool and up

## Customer Reviews

Know this first: I'm a huge fan of all things Disney, especially POTC the ride. Imagineer Surrell's book is very well-done. This is one of those (along with his earlier work on the Haunted Mansion) that I go to again and again, like watching a favorite movie or listening to a favorite album. Maybe I'll notice on the 50th reading ONE MORE DETAIL I somehow missed...I especially enjoyed the look at the other parks' version of the ride. Rock on, Jason! Con: Woulda liked it in HARDCOVER. Now, as with any OTHER topical subject, some of the info goes out of date the day the book is published, and will continue to "go stale". The 2nd, 3rd, and even talked-about 4th movies are, of course, not included. The much-publicized ride rehabs are not either. This is the same with Jason's earlier Disney's Haunted Mansion book (a good companion piece, by the way). That said, the HM book goes off into a hopeful description of the actually-miserable HM movie, touting it as the best thing

since Bela Lugosi. This was written well in advance of the actual public release of the HM movie, I guess, so they were gambling the public would love what turned out to be a huge embarrassment. ( When I need cheering up, I sometimes imagine HM Director Minkoff at what I hope is his new day job, asking people if they want to add a cherry turnover to their order for just 50 cents more ). Okay, here's your soapbox back. They shouldn't have pushed the HM movie so hard in THAT book. Not so in THIS book: Because they "got burned" on the HM movie, there's a decidedly less-throat-cramming push for Curse of the Black Pearl, which, of course, in hindsight, they could have laid on thicker, now that the movie has generated some kind of Star-Wars-level cultural shift. Buy the book. You know you want it. I know I want more books on CLASSIC Disney attractions, and I only want 'em writ by Jason Surrell. Amen.

Love the book. Great pictures and interesting facts. Great book and wonderful conversation piece.

I saw this at an amusement park convention (years ago) wanted to add it to my collection. I bought it for a fraction of what they wanted at the show. So much info on one of my favorite all time attractions. It inspired me and countless others with such rich detail, a great story line, in such a themed immersive experience. Also inspiring several great movies. My order was received in about a week from when I placed my order. It is an amazing book. Well worth it.

I bought this book at the Magic Kingdom for my son, and wound up sitting in a restaurant by myself for an hour combing through the pages. There is so much wonderful behind-the-scenes info that I had a hard time putting it down! So many questions I've had since I was a little girl were answered, including some that I didn't know I wanted to know! For instance, why does Disneyland have two drops and one trip up a waterfall, as opposed to the Magic Kingdom version which only has one drop. (You'll have to read the book to find out) Also, there are great stories of how this group of animators had to produce three dimensional scenes and characters when there was nothing around like it ever done before. It really makes you appreciate the work that went into this great attraction. I especially liked Alice Davis' recollections of the strange issues she had with the costuming. The book is an easy read, and is filled with fantastic pre-opening photos. I also bought the Haunted Mansion book and it is equally as fascinating. Both books are worth much more than they actually cost. Jason, if you read this review, I'd love to see a book about the one year it took to create "It's a Small World", and the attractions at the 1964 World's Fair. I'd be first in line for that!

This is an amazing book, just like the one written about The Haunted Mansion ride. This book is a must for the Disney Park fanatic, but may bore the casual reader. Yes, it could be enjoyed by all, but again, it is more of an inside look to who designed and built the ride. Rather than just fun little facts, this is an indepth look at the creation and genius of the ride. It is a great read that the Disney Park Fanatic won't be able to put down until finished. I have spent many a nights reading until 3:00 or 4:00 a.m. Awesome and informing. Just buy it and decide for yourself.

I thought that Jason Surrell's book about the Haunted Mansion was great, and this book is just as wonderful. Read about the original idea proposed for the 'walk-thru' version of the Pirates of The Caribbean ride, go through each scene of the actual ride and find out the differences between the California, Florida, Japan and Paris rides. There are many photos and illustrations throughout the book (some of which I've never seen before). The book ends with a section on the movie and points out certain scenes taken from the ride. Overall, this book is worth every penny! I am looking forward to Jason Surrell's upcoming book on the Disney Mountains (Space, Thunder & Splash)

Better than described...Thank You!!!

As a huge Pirates of the Caribbean fan, I was very excited to be able to get this book. The beginning was mostly about the changes that the ride(which the movie was vaguely based on) at Magic Kingdom went through. The author thoroughly explained the depiction of each of the scenes in the ride. The final sections in the book told about the movie Pirates of the Caribbean: The Curse of the Black Pearl and how it was totally different from the basic idea that the producers wanted. I would really consider this purchase if you're a fan of the movie. I just wish that it would've focused more on the movie rather than the ride.
