## Customer Reviews

Great but do not purchase it if you have already purchased the Elmo Jenkins Novelettes, they are the same, I love these novels but was disappointed when started reading it and discovered that it was not a fifth novel but the novelettes all together

I love this writer's humor. Time after time I was taken by surprise by something written in this book

and laughed out loud (yes, out loud). So far I have read all "Elmo Jenkins" books and will watch for further publications by this author. Also appreciated the many times there were references to the Bible - some thoughts were comforting and some were there seemingly just for me to pay attention to. Thank you Kindle for having these available to download.

Once again, McMillian does not disappoint in his ability to take you into the shoes of and into the mind of his many colorful characters. I thoroughly enjoyed these vignettes of the supporting actors in the Elmo series.

Great book, Fun read! It feels like your part of the community and part of the family. I learn and laugh, cry and consider as in I read any of the Elmo Jenkins series! Love them all.

Stories were good as always; however I have read the first 4 books, and in this collection some of the text was taken verbatim from them. I am looking forward to the next installment, book 6. Thank you for the delightful adventures of Elmo Jenkins and associated characters.

I have truly enjoyed all of the "Elmo Jenkins" books so far. They are full of characters that you get to know, and love for the most part. These stories are easy to read, fun to read and something I have trouble putting down once I start reading. \*S\*

It was great to preview some main characters before going to book #6. The characters are so interesting and I am sure most churches have these lovable people in them. Bring on book #6

All the Elmo Jenkins books are just wonderful! McMillian Moody is the first author I've actually signed up to follow on .These books are just really nice stories. They aren't filled with weird stuff that makes you uncomfortable. You can tell your mom about them and suggest them to her (which I did!). I love reading them.
