Manicaland (Mozambique) Rough Diamond Buying (Buying Rough Diamonds. Book 3)

Synopsis

This book is the ONLY BOOK IN THE WORLD ON ROUGH DIAMOND BUYING IN MOZAMBIQUE AND ZIMBABWE. (The diamonds are actually from Zimbabwe). During the time we were there, it was illegal to have the Zimbabwe diamonds but now you can go and buy legally in Zimbabwe so people go straight there rather than sitting in Manica.) This book is the only one of its kind in the world to show you HOW we buy the Zim diamonds and not just nice photos of them. I show you how diamonds are graded and how to overcome the fact that the Zimbabwe diamonds are 90% coated diamonds and not clear white like other countries. You learn how to buy the diamonds and how to maximize your returns. You will also learn how the dealers work in the countries and I show an actual buying session as well and you will see how the "game" has to be played in order to get what you want. This is the first book on the subject in the world from "someone that has been there and done that" and not a second hand account. I lived in Manica, on the border of Zimbabwe for three months and I show you all you need to know about the diamonds and how to grade them to get the colors you want when they are cut and polished. I show you one parcel we bought for \$350,000 that was 350+ carats. I will tell you things people do not want you to know about the diamonds there that can make you a great amount of money. You will see scant information on these diamonds in trade magazines but nowhere will you find the detailed information I have on them and how to grade them and get the best. So if you have an interest in Zimbabwe diamonds then this is the book for you. I give prices and grading info as stated and the prices were good when I was there in late 2010. I am sure they have gone up in value now that there is the KP process in place there and they can be taken from the country legally. When I was there all the buyers had to get them out in a round about way. Now it is legal from Zimbabwe so all is well that ends well. :) For someone that knows rough diamonds and how to sell them as polished, this is one country that you can make a great amount of money. There is one or two small tricks that will let you invest a few hundred dollars per carat and realize several thousand per carat. Below are the chapters and you can see what is in the book. As I say if you want to learn about the rough diamonds business there, this book is for you. Should you want to go and buy some diamonds there then contact me and we can work on a small project to get there and get them and make you some excellent money in a short time period.
