## Customer Reviews

It's a Celtic mystery: how can a country as small as Ireland be packed with so much majestic history, natural beauty, vibrant culture, and, of course, fun? A comprehensive budget travel guide to traveling in Ireland with tips and advice on things to do, see, ways to save money, and cost information. With the help of this book we can plan our own travel in Ireland region by region before our vacation or tour.

If you want to visit Ireland, then this is the book that you must have! This guide gives you very good information that will be useful, especially if you for the first time visit this beautiful country. As a young woman, I was in Ireland, and I got great friends there. I plan to go, now with my family, and this guide is of great benefit to me.

Ireland had been on my wish list for quite some time, so I was very happy when I decided to visit. My friend recommended me to get this travel guide in kindle. She used this book on her recent travel to Ireland. I booked 3 full days to see the place. This book makes it easy to plan our visit in the best possible way.

A very helpful guide book that you can use when you visit Ireland. This travel guide will give you the top places to visit, important sights to see, and experiences you should not miss when you are in Ireland. It can help you plan your itinerary for more enjoyable journey.

I'm planning a trip to Ireland soon, and I thought this book was really helpful. I've been to the UK several times, but I've never been to Ireland, so I needed a helpful travel guide on the go. The information on the castles was especially helpful, as I plan to visit several during my trip. I'm happy that I got this book!

I'm glad that I got this book from a close friend of mine last few weeks ago. Well this book has a lot of helpful hints on where to stay, what to see, what not to miss, where to eat etc. for every region. We have already been to Ireland once, but want to see a part we missed and spend some more time in areas where we did not have enough time, and I can lay out the perfect trip with this book and know how much time to allot for each area. Overall, this book is very detailed and a great read.

I'm using this to plan a two-week trip to Ireland. It's my first travel guide. I've really enjoyed the

information and the humor in the personal accounts the author leaves. The recommendations so far have been awesome and have helped me pinpoint some key attractions and lodging that I can't miss on our trip.

One of the best travel guidebooks I've ever read for Ireland. I know nothing about this country but since I became a fan of Connor I've decided to spend some time learning more about his country and eventually visit it. This book has given me all the information I need to know about Ireland like where to go and where to eat.
