# ICU/CCU Facts Made Incredibly Quick! (Incredibly Easy! Series<sup>™</sup>)

## Synopsis

ICU/CCU Facts Made Incredibly Quick! is the point-of-care reference every nurse in the intensive care/critical care unit needs. This pocket-sized book of clinical tools provides instant access to essential information ICU/CCU nurses need quickly. The wipeable page surface allows nurses to make notes and remove them easily. Coverage includes significant abnormal assessment findings, complications of diseases and procedures, IV infusion, ACLS medication review, ACLS algorithms, BLS review, ECG interpretation, hemodynamic monitoring, evaluating cardiac output, managing multiple trauma, and dealing with death. Dozens of illustrations and charts are included. Tabs or distinctive colors identify each section.

## Customer Reviews

Thank

The product was exactly as promised. Shipping was slow. It took 2 weeks to receive. Although would respond to my emails regarding estimated shipment date - the shipper would not.

Bought this as a resource for our ICU at the request of my manager. It is a convenient size and provides concise information. More valuable to those nurses newer to the ICU than the experienced, but even us experienced nurses could use some help now and then!

Great

I love this easy to follow pocket size guide. It fits in my purse and I carry it everywhere.
