Puppy Training: The Full Guide To House Breaking Your Puppy With Crate Training, Potty Training, Puppy Games & Beyond (puppy House Breaking, Puppy Housetraining, ... Dog Tricks, Obedience Training, Puppie)

Synopsis

In this book you will learn in depth how to welcome your new member of the family and how to teach him from the start the right behaviour with love and affection. Voted BEST PUPPY GUIDE by the Professionals in the field. Be ready for your new puppy to come home. This book covers everything from naming your puppy to house breaking and even playing smart games with him. Taking the decision to bring a new member in the family, a puppy, is a big decision. Most people don't realise the responsibilities they agreed on taking by having the puppy coming in. In order to be ready there are a few steps to learn before your puppy to arrive and then a lot to do continuously since the first day he has arrived. This book contains proven steps and strategies on how to welcome your new addition into your home and how to train your puppy effectively in housebreaking, obedience, getting him used to the leash and various social situations. This book is your go-to guide for training your new puppy, and you should ideally read it long before you even adopt your new puppy. There is a well-known myth that puppy obedience training should only start at six months of age, and that couldn't be further from the truth. Puppy obedience training starts the minute you adopt your puppy, from giving the correct name to introducing your puppy to their first leash and collar, everything contributes to the obedience training of your puppy and starts day one. This guide will help you every step of the way with your new puppy and contains useful training techniques and tricks to teach your puppy and help him grow into a happy, mature dog. In this book you can expect the following:

- How does a puppy think
- Setting the ground rules
- Crate Training
- House Breaking your puppy
- Stop Biting and Mouthing
- Puppy-Proofing your house
- Grooming your puppy
- Introducing training in his life
- Getting familiar with the leash
- Socialization of your puppy
- Avoiding anxiety when left alone in the house
- Showing your love & affection to your puppy
- Teaching tricks to your puppy
- Small games to play with your puppy
- Naming your puppy

I love dogs. They're the best friends we can have as humans. However, they can be quite the devils at the same time as well. If you want to create a quality relationship for the rest of your life and save yourself from a lot of stress then you should know how to train your puppy correctly. This book covers exactly what you need to know about the topic of dog training. I just got a puppy myself and have put the tips and tricks prescribed here into practice. You will learn how to train your pet step-by-step and how to have fun doing it.

I plan on adopting a dog soon, and came across this book to prepare. I'm really happy I decided to buy and read it because it gave me so much info that made me much more confident in adopting a dog and becoming a new dog owner. It will also help in choosing a dog, because it talks about how puppies think and identifying his/her specific personality. It also talks about crate training, which will help me decide which kind of crate to buy. Super great guide with heaps of information like: how to puppy proof your house, grooming, house breaking your puppy, everything to expect, naming your puppy, socializing, tricks and much more. Highly recommend for any kind of dog owner.

This eBook is very helpful to those who are new in adopting a puppy. Really great guide to housebreaking and training your puppy dog. I wish to have a dog and this is a reason why I bought this book. It's full of great and useful tips and trick, strategies, and commands. Because there's a big difference between training them for fun and training them for competition, some just teaching them some tricks for them to get along with their dogs. A highly recommended

This is one great book that will guide you on how to train your dog in the best way possible. Everything in it well structured and explained and there is a solution to almost every problem. I love this book because it helped me a lot with my dog, especially because I had problems with potty training. I consider that this is the book every dog owner should have and use and I strongly recommend it!

This book is perfect for every dog lovers out there! I must say that this book is a very effective one. If you want your puppy to be obedient you surely have to read this. Some of us have tried to teach our puppies but it wont work or maybe it worked yet it took so long before they have learned. Inside this book are some fun games for puppies.

Very basic info on puppy training.Many topics were covered very briefly - nothing was covered extensively.I didn't learn anything from this book that I hadn't already read in free 'puppy guides'.Typos, grammatical errors and inconsistent formatting makes this book looklike a first-time DIY self-publishing effort.

I have two french bull dog puppies and was looking for a book to learn how to train them for living indoors. This book provides a golden number of top tips to toilet train your puppies living in your house. The step by step guides are clearly structured and articulated in such a way that you have confidence on the entire puppy training process. I highly recommend this book as now my two pups are starting to behave themselves!

Its a very well structured book that touches on every aspect of training a completely new puppy into a very obedient and disciplined dog. I think that the author was able to convey the messages very effectively and has been a dog owner for many years. It is rather a pleasant read and I look forward to being able to train puppy too. Just like children, young puppies need proper education
