Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the world's largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

My daughter loves it. I read the other reviews about the recorder really being yellow and I told her about this so she was actually disappointed when it came white. I don't know if they have changed back to white or what but ours was white. This isn't our only recorder book and my 8-year-old isn't a beginner so this was fine for her but I wouldn't go much younger than that and you need to know the basics already. This is not a beginner book at all. Pages 3-6 show the beginning five tones

(B,A,G,C,D) page 7 shows notes and counting, 8 has a fingering chart and then you're off into your first Disney song with eighths, sixteenths, dotted notes, and accidentals and rests which were not explained. All the songs are in the key of C and fairly easy to play if you know how to read the music. If you need a mostly beginner book I recommend the Recorder Fun Book if you know the basics of how to count music. I used a level one piano book first so I didn't need a truly beginner book for her. The Fun Book goes much more slowly learning each tone and the notes but you need to know what rests are or at least be able to figure it out from how many counts are left in the measure. My four year old really wants to play but her fingers have a lot of trouble reaching and covering the holes. For now I do the fingering and she blows. She still loves it though. As for the recorder- no complaints. It sounds great and seems to be good quality. I wish it had come with a cleaner though.

The recorder works fine, but I only gave three stars because the book isn't practical for a beginner. It goes from teaching a few notes to really complicated songs. My son isn't really able to use it.

It is yellow not white!!! Well I get a yellow one... other than that is it great. Nice book of songs my child liked it. Record itself is acceptable. comes apart like the others, and it is what you would expect for \$5...

My little one likes her new recorder and is having a blast playing it. She was very disappointed that the recorder that was bundled with the book is yellow. The picture shows the recorder as being ivory not yellow. Other than that, everything is great.

My grandson uses the book to practice his recorder with for school.

Bought these for my 2 grandkids, they drove my daughter and her husband nuts! They sang to me on Skype!

The book was great to use! The recorder was as usual.

The recorder is pretty good but the low notes are very touchy, you must blow just right not to jump up octaves. The book is nice, only a few songs but good
