The Process Of Legal Research: Authorities And Options, Eighth Edition (Aspen Coursebook)

Synopsis

A time-tested, proven introduction, *The Process of Legal Research* acquaints students with all of the sources and relevant vocabulary and shows how each source works, how to combine sources into a cohesive research process, and how to resolve legal problems through effective techniques.

Extensive illustrations and examples quickly engage students in actual research problems, as the text carefully demonstrates how research and writing are interrelated processes. The authors focus on teaching the best research practices, illustrating how to choose the appropriate source and media for each type of problem. Electronic research is completely integrated into the text. Students are given solid guidance for every type of situation, learning when and how to choose between paper and electronic research, and how the choice among different media can result in different access means, scope, and currency of materials. *The Process of Legal Research* offers extensive, well-researched problems sets, ideal for large programs that need plenty of exercise options for their students. Pages with problems sets are perforated for easy use. The Eighth Edition finds a sharper focus on the basics, asking and answering the questions, "What are the various forms of legal authority?" and "How does each contribute to resolving a client's legal problem?" A greater emphasis on how to choose the optimal research options for various authorities includes a mix of print and online as well as public and commercial resources. Each chapter includes a table of optimal research options. The Eighth Edition skillfully interweaves smaller employment law problems faced by a firm throughout the text, rather than the single mega-problem of previous editions, and new flow-chart style charts illuminate much of the denser text. Citations are covered in citation boxes, reflecting both the Bluebook and ALWD. In a leaner writing style designed appeal to modern students, the Eighth Edition confronts some of the most current hot topics, such as how people think about research today and what firms find wanting in new lawyers research abilities.

Hallmark features:

- Provides a complete introduction to the process of legal research
- the sources and vocabulary of legal research
- how each source works
- how to combine sources into a research process
- how to resolve legal problems through effective research techniques

Customer Reviews

Well the price was right. Better than school book store. For my LGST 102 legal research class. I am actually using previous edition. I have CD there and the school assignments. Leaned to get older editions. worked for my LGST 103 legal writing class. So taking this one, LGST 103 Legal writing, legal research, LGST 102 and civil ligation , LGST 218. Want to get paralegal cert over with. with full time job, paralegal studies and tutoring my son in IT PC class and Java (Hope he can learn programming).. If he progresses I can do law school. We shall see. Not shooting for 4.0 gpa.80 be \$24 no civil, doing lgst 104 interview n investigating \$46 used saves \$\$

As far as I can tell (I've only read up to the second chapter) all the the important information is there. However there are formatting issues. If you download the e-book sample, you will see that large titles are cut off. If you go to the contents pages you will see that large titles are cut off on the left side, if you go to the Exhibits list you will see that the left side is cut off a bit (just the numbers, you can still see the words after), in the Acknowledgements section when they list the publishers that gave them permission to use the exhibitions they're also cut off on the left. I bought the e-book anyway, because as I said the important parts that I needed for class were legible. It would be nice if the publishers fixed the formatting issue though.

I've read many textbooks over the years and a fair share on the topic of legal research for paralegal courses and law but this is the first time yet that I have ever been unable to stay current on my

assigned reading for my course. I can barely make it through a few pages at a time without the slow pace of the text lulling me into a state of utter boredom. Within ten minutes I find myself falling asleep, text in hand. I'm certain that there is much to be learned from the contexts of the text, but I prefer to learn it in such a way that the reader's interest is maintained. The authors have failed to create a method to adequately engage their readers.

in good condition

The book was brand new!!!!!!

I bought this for my upcoming Legal Research and Writing class. I'm only on page 6, but it is absolutely wonderful.

used it loved it

Although the book was quite expensive for a soft cover edition, I found the contents valuable for Law School. If you can buy a used copy it is a good reference for Legal Research.
