# Dave Barry's Money Secrets: Like: Why Is There A Giant Eyeball On The Dollar?

## Synopsis

Did you ever wish that you really understood money? Well, Dave Barry wishes that he did, too. But that hasn't stopped him from writing a book about how to understand money. In it, Dave explores (as only he can) such topics as

- How the U.S. economy works, including the often-overlooked role of Adam Sandler.
- Why it is not a good idea to use squirrels for money.
- Strategies that will give you the confidence you need to try for a good job, even though you are, let's be honest, a no-talent loser.
- Why corporate executives, simply by walking into their offices, immediately become much stupider.
- An absolutely foolproof system for making money in the stock market, requiring only a little effort (and access to time travel).
- Surefire tips for buying and selling real estate, the key one being: Never buy, or for that matter sell, real estate.
- How to minimize your federal taxes, safely and legally, by cheating.
- Why good colleges cost so much, and how to make sure your child does not get into one.
- How to reduce the cost of your medical care by basically not getting any.
- Estate planning, especially the often-overlooked financial benefits of early death.

But that's only the beginning! Dave has also included in this book all of the important points in a book written by Donald Trump, so you don't have to read it yourself. Plus he explains how to tip; how to negotiate for everything, including bridge tolls; how to argue with your spouse about money; and how much allowance to give your children (three dollars is plenty). He also presents, for the first time in print anywhere, the Car Dealership Code of Ethics ("Ethic Seven: The customer is an idiot"). Also there are many gratuitous references to Angelina Jolie naked. You can't afford NOT to buy this book! Probably you need several. --This text refers to an out of print or unavailable edition of this title.

## Book Information

Audible Audio Edition

Listening Length: 5 hours and 30 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Brilliance Audio

ASIN: B001IV0ER4

Best Sellers Rank: #40 in Books > Audible Audiobooks > Humor > Parodies #246 in Books > Audible Audiobooks > Humor > Essays #544 in Books > Audible Audiobooks > Business &

## Customer Reviews

Ooooooh Dave. How often I read thee. If you have a heart condition, I do not recommend this book. You will likely laugh so hard that you actually die. That said, if you think that you may die soon anyways, it is probably a good way to go. In which case, I do highly recommend this book to you, and also, rest in peace. In this book, Dave Barry pokes a ridiculous amount of fun at one Suze Orman, who is apparently some sort of money expert who has written about 100 books about how to be rich without getting a better job. Someone had to do it, and I'm glad Dave stepped up to the plate! Whenever he is kidding, he puts a picture of Suze Orman into the book. That's all you need to know. Now buy it.

Dave Barry's books are always good.. He is not a fortune teller. He gives you the fact, not the story. His books are full of good thoughts

There is nobody like Dave Barry. He has a unique ability to set up a gag for later use that takes the reader by complete surprise when the gag is sprung.

I have read several of his books over the years. They are laugh out loud funny and this book was no exception. However, I noticed the addition of coarse words as he has gotten older (to bad). I like the way he can mix true and ridiculous and make it sound plausible. The real life experiences are a scream. I have a couple more of his books to read. Keep them coming Dave!

I'm a big Dave Barry fan, but as an economics teacher for forty years I had my doubts as to how he could make money topics funny. Well, he far exceeded my expectations. This book illustrates how intelligent you have to be to sound silly and stupid. Barry provides his usual of the wall humor while addressing all the usual topics discussed by "money experts."

All of Dave Barry's books keep me smiling from cover to cover.

I got this book from the library thinking it was a serious book..I'm so glad it wasn't..it was so funny and entertaining that I stayed up all night on a Friday night, of course, reading it while laughing out loud...but don't buy it thinking its a Dave Ramsey type of book...I bought it for my sister two or three

months ago and she still hasn't read it

One of the funniest books I've ever read. It's rare that I laugh out loud to text, but this has been an exception.
