Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

I can't say I love the way this book reads, but I do love the concept of the book. My 3 year old with an anaphylactic peanut allergy LOVES this book, and that's what matters. I do wish that nutley would have had more severe symptoms than a rash and hives, but at 3 years old it's my job to protect my son from peanuts, so it's more important for him to get the gist of why he can't eat certain things than to get full blown terrified about it I guess. I do appreciate how it highlights that everyone is different in their own way (relating in this case to different food allergies) and how those who care about you don't mind being extra careful for your protection. The best part of this book is that the proceeds are all donated for food allergy research.

Got this to read to my daughters Kindergarten class. Cute story about food allergies that is easy to understand and enjoyable.

This is a great book for my daughter who is allergic to peanuts. It's a cute way for her to relate to the

various animals in the book and a great way to explain allergies to her little sister.

My 2.5 yr son has peanut allergies and loves this book. He asks me to read it every night before bed. The book is a very short read, but we have to stop on each page so he can point out Nutley. He also loves to point out all the other animals on each page. I highly recommend this book.

This book made my son so happy to read! Although it's obviously make-believe, it 'showed' him that others have the same allergies and they adapt. He is not alone and doesn't have to feel different. SO happy with it!

I am proud to issue Stephanie Sorkin my Best Ever You Blue Ribbon Award for Excellence. This book is not only adorable, but also informative and will help kids understand and cope with their allergies. Well-written and illustrated, this is a must-read for kids with food allergies.

Very cute and informative book for kids not familiar with allergies!

Cute book, a squirrel who can't have nuts. Who thinks this stuff up. Lol
