## Customer Reviews

"[The Keys is] an invitation to join someone else's victory lap, in the hopes that it might help you envision your own. He's left a key under the mat so you can let yourself in. • The New Yorker • "There is a Khaled quote running through my head: "Those who have a hundred percent chance of losing are the people who never try." He's right. How can I win if I don't even play? • Vice

Bless up.

Purchased this book for my son who is serving time in county jail. He is a gifted poet and prolific writer. I sent him Empire State of Mind about Jay Z and he devoured it. Just sent him DJ KHALED's book. He can't wait to get out and start working on his writing and music. Thanks to these great examples, he is looking at life through a different lens. Thanks.

No problem with the quality or price, just not so enthused by the content. I had heard about the book on NPR, and thought I'd give it a try. Great thoughts behind it, but the style in which it's written in a

little bit too much for me. I do not enjoy reading books with grammar and or syntax errors that really stand out--I knew this would have some, but too much for me in this book.

I thought the book was going to be a contrived list of pointless platitudes. In reality it is a humble eye opening compendium of insight. The lessons and HONESTY and transparency were refreshing.

They Really dont want you to read this book. Application of this book to your personal life will give you the key to open doors. The mind is very powerful. Khaled used his mind to drive him to never fail to push his talents inside those doors. I look at it as the "key" was in the slot but he bust the door down at times and it works because "they" didnt want him in. #Majorkey

I bought this book for the teenagers in my life but ended up reading and enjoying it myself. It's well written and shares a positive, work hard, play hard message. Easy to read too!

Horrible book and unreadable in my opinion. DJ Khaled seemed like a nice positive person when he was promoting the book but it reads like a tv infomercial. The guy made fun of the people that buy his products in a turbo tax commercial so that says it all. He isn't trying to help people, he just wants your money.

I purchased several copies to give out to young adults. A little encouraging never hurts!
