Lots of fun new minis to throw at the players.

Another Great Pawn Set!

Despite the extreme frustration of having to buy this without knowing what was in this set, I am very happy to have made this purchase. I knew it was a gamble when I bought it, but I received exactly what I was hoping for. There are primarily a lot of unique looking npcs in this box. There are a variety of heros, villains, and unique looking monsters that could serve as npcs. I'm sure that the company who makes these would make a lot more sales if they would just show pictures of some of the content, it's hard to want to pay this much as a risk of not knowing what will be inside the box.

It has lots of characters and creatures to choose from so whether your DMing or being a player you'll be able to find something for you. Only thing I don't like is that on a couple of the pieces the weapons go off of the tile so instead of holding a spear it looks like they are just holding a stick.
