Advice From The Lotus-Born: A Collection Of Padmasambhavas Advice To The Dakini Yeshe Tsogyal And Other Close Disciples

Synopsis

Don't mistake mere words to be the meaning of the teachings. Mingle the practice with your own being and attain liberation from samsara right now.

Padmasambhava is the primary master of Vajrayana, the teachings for our time. Out of his great compassion and wisdom, he instructed his main disciple Yeshe Tsogyal to conceal terma treasures to be revealed at the destined time for future practitioners. The profundity of this advice is meant to be personally applied by all individuals in all circumstances. It is a classic work, which contains valid truth for anyone who sincerely wants to follow a spiritual path. The chief compiler of Padmasambhava's teachings was Yeshe Tsogyal, an emanation of a female Buddha. There may be some people who believe that only men can attain enlightenment, but her life is proof to the opposite. The awakened state of mind is neither male or female. • Tulku Ugyen Rinpoche, from Introductory Teachings

Customer Reviews

"The chief compiler of Padmasambhava's teachings was Yeshe Tsogyal, an emanation of a female Buddha. There may be some people who believe that only men can attain enlightenment, but her life is proof to the opposite. The awakened state of mind is neither male or female."- Tulku Ugyen Rinpoche, Introductory Teachings

This is a golden book for anyone on the dzogchen path. Padmasambhava's teachings, written

down by his consort Yeshe Tsogyal, is as important today as then - if not more.

Padmasambhava, also known as Guru Rinpoche, is credited as being the main person who brought Buddhism to Tibet, and is also understood by Tibetan Buddhists to have been a Buddha himself. In some contexts, one approaches teachings directly at their source first, and then looks to commentaries, explanations, etc. For example, in Protestant Christianity, one is often encouraged to go straight to the New Testament and read that. Then one reads the works of theologians, biblical scholars, preachers, and so on. However, in Buddhism the approach is often the opposite. First one goes to a teacher who is a contemporary of yours. Then, having gained some confidence from that teacher, and having put into practice some of the teachings and having seen their effectiveness and practicality, one then turns to some other writings of an introductory nature. After having gained some grounding in those, one may then turn to a commentary on a root text. Then, one may read the root texts oneself. Lastly, one may turn to the sutras and words of the Buddha himself. Trying to start there, however, would not be advised -- as anyone who has tried to read the Tripitaka (the three baskets of teachings of the Buddha) or the tantras can attest! Similarly in the case of this text -- one should have a good grounding before attempting very difficult texts, and they should in all cases be read while one is studying with a lama. Otherwise, misunderstandings may occur, and these may be worse than not having encountered the text in the first place. But if one does have that grounding, what greater treasure is there than to read such wonderful texts? I write this review, and give it five stars, in part because I saw that there are already three reviews and even though each one praised the book, for some reason one of the reviews shows up as having no stars (a bug in 's system, I suppose), and so the general rating of this book was only three and a half. Yet, clearly, stars cannot estimate the value of such works...

An outstanding presentation of Guru Rinpoche's wisdom and "advice

Pith.

Padmasambhava as most of you know was completely enlightened. So, what a blessing it is to have access to material written and dictated by himself. Under his immediate counsel. This book is good for practitioners of every level. But, specially for those who are midway their paths. The direct advices will cut straight through the BS still there. And for beginners I think it definitely will inspire them. This is an absolutely must have. Hope that this review will drive you to read this book and the

merit you'll collect bring us all to perfect liberation.

As I took a few striking notes down from this book, I heard a voice in my mindstream say, " this contains all you need to know for this life..."

Gd book to read if you are keen on spiritual

"Don't mistake mere words to be the meaning of the teachings. Mingle the practice with your own being and attain liberation right now." It really is advice, in plain English.
