My daughter has struggled with reading for several years. This book, because of the "comic book" version it is written in has her reading independently and with enthusiasm for the first time. I hope they continue with the rest of the series because if they do I will buy them ALL for her.

My 9 year old daughter loves these graphic novel books! We were so sad to learn that they are only making 4 of this series in graphic novels. Cute story line- same as the ones I read when I was a kid. These books are great for the kids who are still a little intimidated by a regular chapter book and for the ones who love to see pictures with what they are reading.

I gave this book five stars because this book is colorful and interesting to all ages, and it is one of my favorite books ever!!! I loved it!

My daughter (10) got all four of the books within this series for Christmas and had them finished within three days. She has since reread them multiple times and given them as birthday gifts multiple times.

AMAZING! This series is a must-read for anyone who loves graphic novels. The stories are so engaging and the artwork is beautiful. I highly recommend this series to anyone who is looking for a new way to read. The books are so easy to read and the characters are so relatable. I can't wait to read the next book in the series!
