It’s important to keep track of your brewing if you want to improve, or if you want to be able to repeat

your successes. Well, this is THE brew journal. I've been brewing for 9+ years and have used many things to keep track of my brew days. BeerSmith works great, but I want a hard copy for reference and something to track each step better. I've tried other logs, made spreadsheets, etc, but NONE of them are as helpful as this log. There are a bunch of great reference sheets and guides that help, even a section on hops with substitution suggestions and basic profiles to help with recipe formulation. The log sheets are very clean looking, with plenty space for all the details of the brew session. There are plenty pages for your entries, so this along with the FANTASTIC construction of the book will ensure you have it for many brew days. I definitely recommend you try it, as I can't see myself using anything else for my hard copies! I've already labeled the inside cover as "Log 1" as I know I'll be buying another when it's full.

I bought this as a gift for my husband for Father's Day (from our kids to him). When I initially opened it up I was blown away by the quality of the journal. I especially love how all the reference charts were made available right there. He loved his gift, can't wait to use it.

My son, who is brewing his own craft beers now, loves this journal. Plenty of room for writing and includes suggestions and ideas and recipes to try.

I purchased this as a gift for my husband as we have recently begun home brewing. Specifically, my husband has mentioned he wants to break away from the "kits" and start experimenting on his own. I thought this journal would be a great place to keep all of his notes in one single place. My husband was extremely thrilled with the gift. He especially thought all the helpful charts were "pretty cool." You can tell a lot of thought went into the organization of it.

Man, this thing is amazing! I just recently started brewing and at first I was just writing down notes on a sticky pad. That is until I saw this one day. This journal comes in handy in so many ways, not only to keep track of the recipe, and to determine the color, Abv, and more, but it also has a tasting notes section so I can write down the feedback from my tasters (coworkers) so that I can tweak the recipe to make it better. When I fill this journal up, I will be coming back for another!

Very well thought out in design. Seems to be good quality and have already started with my first entry covering an Oktoberfest brew...

Bought this as a gift for my beer-brewing husband. One of the best gifts I've gotten him. He uses it often.

it is a gift for Christmas. I was VERY HAPPY with the appearance of the book and am excited to give this to my sweetie!
