Pakistan (Major Nations Of The Modern Middle East)

Synopsis

When the British Empire partitioned its Indian colony in 1947, it created two independent states: India, where most residents were Hindus, and Pakistan, where most were Muslims. Violence immediately broke out, during which approximately 250,000 people were killed and a million others became refugees. Since then Pakistan and India have fought several wars and there have been numerous tensions along their borders, particularly in the disputed region known as Kashmir. The next full-scale war between these rivals could be devastating, as both countries now possess nuclear weapons. This book examines the economic and political issues facing Pakistan today, which include overpopulation, terrorism, poverty, illiteracy, and corruption. It provides up-to-date information about the country's geography and climate, history, society, important cities and communities, and relations with other countries. Each title in this series contains color photos, maps, timelines and graphics that will help student readers put events into historical and present day perspective as well as back matter including: an index, further reading lists for books and internet resources, and a series glossary. Mason Crest's editorial team has placed Key Icons to Look for throughout the books in this series in an effort to encourage library readers to build knowledge, gain awareness, explore possibilities and expand their viewpoints through our content rich non-fiction books. Key Icons are as follows: Words to Understand are shown at the front of each chapter with definitions. These words are then used in the prose throughout that chapter, and are emboldened, so that the reader is able to reference back to the definitions- building their vocabulary and enhancing their reading comprehension. Sidebars are highlighted gra

Customer Reviews

Gr 7 Up-Previously published in two editions as "Modern Middle East Nations and Their Strategic Place in the World" (2003) and "Major Muslim Nations" (2010), this set has been minimally revised. Changes include some new information about the momentous events and changes that have roiled the region and its governments in the last decade, updated statistics, and new photos. Books are objective and well written and cover standard geographic topics such as history, land, peoples, religions, political organizations, economic structures, foods, and celebrations. Each has several maps, which is a plus, and the large photos are attractive. War, terrorism, and political turmoil have radically altered the customs, religions, and populations of many Middle Eastern countries. Because the revisions don't reflect many of those changes, this set's content is rapidly becoming dated, reducing its value as a report resource. VERDICT Of limited use. (c) Copyright 2011. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc. No redistribution permitted.
